PREMADEEPTHI K.S

Backend Developer

Results-oriented Backend Developer with expertise in Laravel, offering backend support for a ride-hailing platform and its website SEO processes. Proficient in API development, database optimization, and server-side architecture to enhance performance, security, and scalability. Additionally, developed Python-based tools such as a CLI expense tracker and an AI chatbot integration to automate tasks and improve user interactions. Committed to delivering efficient, maintainable solutions that drive business growth and seamless user experiences. Seeking to leverage technical skills in a dynamic development environment.

Project Experience

- DYNAMIC WEBSITE WITH ADMIN PANEL**
Technologies Used: Laravel, PHP, MySQL, AdminLTE
Built a dynamic website with a secure admin panel using Laravel and AdminLTE. Implemented backend CRUD operations, user management, and data handling with a focus on performance and usability.
- EMPLOYEE MANAGEMENT SYSTEM**
Technologies Used: PHP, MySQL, HTML, CSS, Javascript, Bootstrap
Developed a comprehensive system to capture and manage employee leads for a company
- PROFESSIONAL RESPONSIVE WEBSITES**
Technologies Used: HTML, CSS, Javascript, Bootstrap
Designed and developed five professional websites, focusing on clean design & responsive layout
- EMPLOYEE BIRTHDAY MODULE**
Technologies Used: PHP & MySQL
Developed a PHP and MySQL module to generate and manage employee birthday lists.
- CONTACT FORM WITH MAIL INTEGRATION**
Technologies Used: HTML, CSS, Javascript PHP
Developed Contact Form for 3 Websites with Mail Integration using HTML, CSS, Javascript & PHP.
- EXPENSE TRACKER SYSTEM**
Technologies Used: Python, CSV, DateTime, File Handling, CLI
Developed a command-line based personal expense tracker to manage and categorize expenses. The system allows users to record daily expenses, view all transactions, generate monthly summaries by category, and export reports to CSV. Emphasized modular code structure and real-world file handling techniques.

Experience

- NINOS IT SOLUTIONS PVT LTD**
Backend Developer (Laravel + Python) | Jan 2025 – May 2025
