Career Objective

To secure a challenging position in a reputable organization to expand my learnings, knowledge, and skills. I aim to use my coding and design abilities to develop web applications. I can use my extensive knowledge of programming languages, frameworks along with problem solving skills to develop efficient web applications.

Technical Skills

Languages: C++, Java, HTML, CSS, JavaScript, PHP, SQL, NoSQL

Frameworks/Libraries: React.js, Express.js, Node.js, Laravel, Bootstrap

Technologies: RESTful APIs, API Testing (e.g., Postman), Ajax, WordPress, Firebase Cloud Messaging (FCM)

Platform: GitHub, VS Code, Cursor IDE, Docker

Databases: MySQL, MongoDB

Cloud Services: AWS S3 (S3 Buckets Object Storage, Public URL Generation)

Education

Kanpur Institute of Technology

Bachelor of Technology in Computer Science (CGPA: 8.12 / 10.00)

June 2024

Kanpur, UP

Bishop Academy Dhanewa Maharajganj UP

PCM Intermediate (Percentage: 80.06)

May 2019

Maharajganj, UP

Bishop Academy Junior High School Dhanewa Maharajganj UP

Degree in High School (CGPA: 10.00 / 10.00)

June 2017

Maharajganj, UP

Work Experience

Software Development Engineer (Full Time)

August 01, 2024 to Present

Inventics Software Pvt. Ltd., Lucknow

- * Working as a full-stack web developer, utilizing the LAMP (Linux, Apache, MySQL, PHP) stack to develop, maintain, and optimize dynamic web applications.
- * Leading the development and implementation of new features, ensuring enhanced user experience and robust functionality.
- * Projects: Worked on Gate Pass Management System (SaaS Based), Amba Garments, Zolopay, Sangam, JGH Fieldsales, Womb Wellness, Salasar Balaji Seva Samiti Projects.

Software Development Engineer Intern

Feb 19, 2024 to July 31, 2024

Inventics Software Pvt. Ltd., Lucknow

- * Actively contributing as a full-stack web developer intern, leveraging LAMP (Linux, Apache, MySQL, PHP) stack technologies to develop and maintain dynamic web applications.
- * Projects: Worked on Sangam, Ekal Abhiyan, Gunaytan Projects, Budge Budge Gate Pass.

Projects

Womb Wellness— May'25 | Laravel, PHP, MySQL, Rest APIs, HTML, CSS, JavaScript, Bootstrap

- * Developed the admin panel to manage reporting of patients and doctors, including patient lists, doctor lists, appointments, prescriptions, transactions and analytics.
- * Built backend APIs for both Patient App and Doctor App:
 - Patients register, book appointments, and consult virtually/physically after doctor approval.
 - Doctors approve appointments, prescribe medicines, and track patient history.
- * Enabled the admin to comprehensively monitor patient-doctor interactions, including appointment approvals, prescriptions, consultation records and appointment transactions, ensuring transparency, accurate reporting, and maintain accountability across the system.

Sati Granite — March'25 / *phpMyAdmin, PHP, Laravel, Ajax, JavaScript*

- * Designed and developed the admin panel to manage granite products based on categories, and subcategories.
- * Created APIs for the mobile app, enabling users to browse granite products, place orders, and track delivery.
- * Implemented order approval and reporting features on the admin side to ensure smooth order management and transparency.

Gate Pass Management (SaaS Based) — Nov'24 / *phpMyAdmin, PHP, Laravel, Ajax, JavaScript*

- * Developed a multi-tenant SaaS-based industry management system allowing multiple businesses to track vehicle, staff, user, and goods movement efficiently.
- * Implemented a hierarchical role-based access model—System Admin manages Business Admins, who oversee Factory Admins and their respective staff.
- * Integrated a wallet-based billing mechanism where Business Admins allocate credits; staff scans deduct set amounts, enabling usage-based billing.
- * Built real-time wallet top-up and transaction monitoring features; used PHP (Laravel) and JavaScript for a scalable, accurate, and interactive system.

Amba Garments — Mar'24 / *phpMyAdmin, PHP, Laravel, Ajax, JavaScript*

- * Developed a company website to showcase information about the business, with all data dynamically managed through an admin panel.
- * Implemented features for displaying company content, including company overview, product details, and contact information.
- * Utilized PHP and Laravel for backend development, with JavaScript for frontend interactivity and AJAX for seamless data updates from the admin panel.

Achievement and Certification

Laravel Trainer for Interns, [Inventics Software Pvt. Ltd.]:

- Conducted structured Laravel training sessions for interns, covering MVC architecture, routing, Eloquent ORM, RESTful API development, and project structure.

Gold Badge, Coding Ninjas - Data Structures and Algorithms (DSA) (C++):

- Recognized for exemplary proficiency in Data Structures and Algorithms utilizing C++ programming language on the Coding Ninjas platform.

Academic Excellence Award, Kanpur Institute of Technology:

- Received for outstanding academic performance in the years 2023 and 2022 consecutively.
- Demonstrated consistent dedication to excellence in studies and coursework.

Certificate in Object-Oriented Programming (OOPs) Concept in C++:

- Successfully completed a comprehensive course on Object-Oriented Programming principles using C++, demonstrating proficiency in fundamental OOP concepts and their application.
