## Professional Summary

---

Motivated PHP Developer with 3+ years of experience in designing and implementing robust web applications. Proficient in PHP, Laravel, MySQL, HTML, CSS, JavaScript, React JS, and REST APIs. Having experience developing high-performance applications, optimizing database queries, and ensuring seamless front-end functionality. Strong problem solving skills with a commitment to writing clean, maintainable, and secure code.

## Skills

---

- **Backend:** PHP, Python
- **Frontend:** HTML, CSS, JavaScript, Bootstrap, React JS, Tailwind CSS, jQuery, AJAX
- **Databases:** MySQL, PostgreSQL
- **Frameworks:** Laravel
- **API Development:** RESTful APIs
- **Package Management:** Composer
- **Version Control:** Git, GitHub
- **Testing:** PHPUnit, Pest, TDD, Postman, Unit Testing
- **Methodologies:** Agile (Scrum), Code Reviews
- **Core Laravel Proficiency:** MVC Architecture, Eloquent ORM, Blade Templating Engine, Service Providers, Facades
- **Advanced Laravel Features:** Queues, Events and Listeners, Task Scheduling
- **Others:** Authentication and Authorization, Debugging, Artisan Console, Laravel Sanctum, Laravel Passport, CSRF protection
- **Soft Skills:** Presentation, Planning, Organized, Problem-Solving, Teamwork, Active Listening, Adaptability, Analytical Thinking, Attention to Detail

## Professional Experience

---

**PHP Laravel Developer** (*Technomold IT Solutions*) **Bangalore, Karnataka** *October/2023 - September/2025*

- Developed and maintained web applications using PHP, Laravel, MySQL, JavaScript, Bootstrap and Tailwind CSS.
- Designed RESTful APIs and integrated payment gateways and WhatsApp APIs.
- Built role-based authentication, admin dashboards, and reusable Blade components.
- Collaborated with UI/UX and front-end teams for responsive design and seamless integration.
- Managed version control with Git and followed Agile/Scrum methodologies.
- Participated in code reviews and resolved bugs efficiently.
- Optimized database performance via indexing and query tuning.

## Software Engineer (NeST Digital)

Kochi, Kerala July/2022 - August/2023

- Developed dynamic web applications using PHP, Laravel, React JS, MySQL, and PostgreSQL.
- Designed RESTful APIs and integrated payment gateways and third-party services.
- Performed unit and integration testing to ensure application stability.
- Managed version control with Git for smooth team collaboration.
- Collaborated with UI/UX designers to build responsive front-end components using React JS and Blade.
- Optimized SQL queries and database structures, implementing caching for improved performance.

## Junior PHP Developer (Vandalay Business Solutions)

Kochi, Kerala February/2022 - March/2022

- Developed and maintained web applications using PHP, Laravel, and MySQL, following clean code practices.
- Assisted in performance tuning, bug resolution, and optimizing existing applications for better efficiency.
- Participated in UI enhancements, data handling, and improving application workflows.
- Collaborated in code reviews to ensure adherence to best practices and maintain high code quality standards.
- Gained hands-on experience with MVC architecture, Eloquent ORM, and Blade templating in a professional environment.

## Projects

---

### Learning Management System (Technomold IT Solutions)

- Developed an interactive LMS platform for managing courses, lessons, quizzes, and assignments.
- Implemented role-based authentication for Admin, Instructor, and Student modules.
- Enabled student progress tracking with visual dashboards and quiz performance analytics.
- Integrated email notifications for course enrollment and completion.
- Designed a clean, responsive UI with Blade templates and reusable components.
- Optimized database queries and caching for faster content delivery.

### E-commerce Website (NeST Digital)

- Designed and developed a complete e-commerce platform with product catalog, shopping cart, and checkout process.
- Implemented authentication and authorization using Laravel Breeze for admin and customer roles.
- Integrated Stripe payment gateway for secure online transactions and email notifications for order confirmation.
- Built an admin dashboard for managing products, orders, and inventory.
- Used Eloquent ORM for database handling and Blade templates for dynamic views.
- Optimized SQL queries and introduced caching for improved load time and scalability.

### Task Management App (Vandalay Business Solutions)

- Designed and developed a task management system to manage daily tasks, priorities, and progress tracking.
- Implemented user authentication and authorization for secure access to personal and team tasks.
- Created CRUD modules for tasks with status filters, due dates, and real-time updates via AJAX.
- Built an admin dashboard to monitor task completion rates and user productivity.
- Applied Eloquent ORM and query optimization for efficient database performance.
