PROFILE

Full-stack Software Developer with around 3 years of hands-on experience in building scalable web applications and APIs. Proficient in working with modern technologies and frameworks across front-end and back-end. Skilled in RESTful API design, backend logic, and managing end-to-end development workflows. Brings a solid understanding of software architecture, clean coding practices, and a continuous focus on performance optimization and code quality.

WORK EXPERIENCE

Cogent E-Services Limited

01/2023 - PRESENT

Software Developer

- Contributed to the development and maintenance of scalable web applications with a focus on performance, usability, and reliability.
- Worked closely with cross-functional teams to gather requirements, implement features, and ensure timely project delivery.
- Designed and integrated RESTful APIs to enable efficient data exchange across systems.
- Involved in both new development and enhancement of existing systems to support evolving business needs.
- Participated in code reviews and team discussions to maintain high standards of code quality and collaboration.

Fanplay Games and Media Pvt Ltd

05/2022 - 12/2022

Intern

- Assisted in developing RESTful APIs and resolving backend issues.
- Optimized database queries and handled data operations.
- Used GitHub for version control and team collaboration.
