MERN Stack Development Course

SDLC, Namakkal — Sep 2024 to Mar 2025
- Completed a comprehensive MERN Stack development course covering MongoDB, Express.js, React.js, and Node.js.
- Gained hands-on experience in building full-stack web applications, REST APIs, and deploying modern web projects.

Online Portfolio using GitHub – GUVI **(View Certificat**e**)**

GUVI (An IIT-Madras & IIM-A incubated platform) — 2025
- Successfully completed a certified course on building a personal portfolio using HTML, CSS, and GitHub Pages.
- Gained hands-on experience in creating and deploying responsive web portfolios using version control and GitHub hosting.

PROJECTS

HEALTH OK PHARMA
- Designed a static website for a pharmacy, providing essential information about products and services. Utilized Bootstrap for styling and layout, ensuring a clean and professional look.
- Built with **HTML, CSS, Bootstrap, and JavaScript**, ensuring a modern and interactive user experience.

   Source Code : https://github.com/Arulmurugan-S81/HEALTHOK-PHARMA

JUICYY SPOT
- Developed a dynamic and interactive website for a juice shop using React.js for a seamless user experience.
- Built with **React.js,** ensuring fast rendering and a smooth, component based UI and responsive for all devices.
   Source Code : https://github.com/Arulmurugan-S81/juicyyspot

UVI'S BISTRO
- A Food CRUD application that allows users to view, filter, and manage food items. Planned backend integration with **Node.js, Express.js, and MongoDB** for robust data management.
- Developed using **React.js, JavaScript, HTML, and CSS,** featuring a dynamic CRUD system with React Router for smooth navigation.
