EDUCATION

TKR College of Engineering and Technology

Bachelors of Technology - CGPA - 8.3

August 2019 – July 2023

Hyderabad, India

Sri Chaitanya Junior college

MPC - Intermediate - Percentage - 90%

June 2017 – March 2019

Hyderabad, India

Ratna Techno School

MPCS - Secondary Education - Percentage - 92%

June 2016 – April 2017

Maripeda Banglow, India

EXPERIENCE

Fretron Pvt Ltd

Backend Developer Intern

Oct 2024 – Apr 2025

Gurgaon, India

- Built scalable backend services using **Spring Boot** and **MongoDB** in a logistics environment.
- Developed and documented RESTful APIs with **Swagger**, ensuring test coverage and code quality.
- Worked in Agile sprints for feature delivery and collaborated across teams for bug fixes and enhancements.
- Explored Angular fundamentals including components, **NgRx** state management, and UI logic.

PROJECTS

Room-Management-System 🔗 | [Java](#), [Email](#)

April 2025 – Present

- Built and deployed a Room Management backend using Spring Boot with MongoDB Atlas. Integrated automated email notifications for onboarding and room allocation events to enhance communication efficiency.
- Developed RESTful APIs for managing users, rooms, and expenses, with integrated role-based access control.
- Deployed the application on AWS EC2 and documented APIs using Swagger UI.

Book-My-Show 🔗 | [Java](#), [Spring Boot](#), [JPA](#), [MySQL](#)

May 2024 - June 2024

- Developed a movie ticket booking application using Spring Boot, contributing to both backend architecture and feature enhancements.
- Designed and implemented RESTful APIs for user registration, movie listings, ticket booking, and payment processing, ensuring secure and efficient communication between services.
- Handled database design and management, along with email integration and Swagger documentation to support smooth application operations.

TECHNICAL SKILLS

Programming Languages: Java, C, SQL.

Frameworks and Libraries: Spring Boot, Hibernate, Spring Security, Swagger.

Databases: MySQL, PostgreSQL, MongoDB.

Developer Tools IntelliJ IDEA, Postman, Maven

Version Control Applications: Git, GitHub.

Coursework: OOPs, DSA, DBMS, Operating System, Computer Networking, MVC Architecture, Microservices.

SOFT SKILLS

- Time Management
- Project Management
- Problem Solving
- Critical Thinking
- Communication Skills
- Teamwork
- Leadership
- Adaptability

CERTIFICATIONS

- TCS ION Career Edge - Young Professional
- Certification in Object-Oriented Programming (OOP) in Java from Great Learning Platform
- Certification in Java Intermediate Data Structures from Great Learning Platform

ACHIEVEMENTS

- LeetCode Coding Challenge Badges (100 Days 2024, 50 Days 2024, 50 Days 2025)
- AccioJob 100 Days Coding Streak and Award.
