PROFILE

Full Stack Developer with 1.5 years of industrial experience in designing, developing, and maintaining web applications using modern technologies like **Laravel**, **Node.js**, **React.js**, and **Vue.js**. Skilled in both frontend and backend development with a strong focus on clean architecture and performance optimization.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University   **Lucknow, Uttar Pradesh**
Bachelor of Technology, Information Technology   CGAP: 7.30

WORK EXPERIENCE

Associate Software Engineer, BrainGrid Technology Pvt. Ltd.   **July 2024 - Present** | Lucknow, Uttar Pradesh
Alert-Trax – *Full Stack Developer (Vue.js and Laravel)*
 - Worked on a ride booking and tracking application, managing both backend and frontend development.
 - Added new functionalities and features based on client requirements.
 - Fixed existing bugs and improved overall performance of multiple modules.
 - Created APIs to create and fetch Stripe subscriptions and price lists.

Loomz –
 - Contributed to a comprehensive Human Resource Management (HRM) system with integrated project management capabilities.
 - Implemented and optimized modules that enable admins and project managers to assign, track, and manage projects and team members efficiently.
 - Resolved bugs and improved functionality across multiple modules, including the Project Report module used by PPC and SEO teams.
 - Developed a real-time chat system for seamless communication between project managers and team members using Laravel Notifications, and MySQL for backend data handling.
 - Designed dynamic and responsive frontend interfaces using Laravel Blade templates for an enhanced user experience.

Software Developer Intern, Code Brew Labs   **Dec 2023 - July 2024** | Mohali, Punjab
Royo – *Backend Support & API Integration*
 - Technologies: PHP, Laravel, REST APIs, MySQL, Git
 - Provided backend support by resolving bugs and improving overall application stability using Laravel debugging tools.
 - Integrated third-party APIs, including payment gateways, and implemented AWS S3 for secure media storage and retrieval.
 - Worked under mentorship, following MVC architecture, Git version control, and Laravel best practices.

PROJECTS

Real Estate Marketplace, *MERN Full stack*
 - Built a full-stack real estate marketplace using the MERN stack with modern UI and responsive design.
 - Implemented secure authentication with JWT and Google OAuth for seamless user login.
 - Developed features for property listings — create, update, delete, search, and image upload.
 - Integrated Redux Toolkit with persistence for state management across sessions.
 - Designed advanced search and filter functionalities for property exploration.
 - Deployed the application on Render for live access.

ONLINE SHOP, *E-Commerce Platform*.
 - Implemented role-based authentication (Admin/User) with secure session management.
 - Built product management, cart/wishlist, and coupon modules.
 - Integrated *Stripe* for secure payments and transaction logging.
 - Enhanced *UX* using *AJAX/jQuery* for seamless dynamic updates.
 - Followed Laravel best practices - *Eloquent Resources, Form Requests, Services, and Traits*.

SKILLS

Languages & Frameworks: PHP, Laravel, Node.js, Express.js, React.js, Vue.js, JavaScript, Tailwind CSS, MySQL, MongoDB
Tools & Technologies: Git, GitHub, Bitbucket, Postman, AWS S3, Stripe API, RESTful APIs, Socket.io, Prisma
Other Skills: MVC Architecture, API Development, Debugging & Optimization, Agile Collaboration

CERTIFICATES

Software Developer Intern (Internship Certificate), Code Brew Labs | **Full Stack Web Developer,** internshala
