

Ashwini Patil

Full Stack .Net Developer

✉ ashwinishivapatil77@gmail.com | ☎ +91 9373563977

PROFESSIONAL SUMMARY

Results-driven .NET Developer with near 2 years of experience building scalable web applications using ASP.NET MVC, C#, SQL Server, and RESTful APIs. Skilled in optimizing performance and streamlining release cycles through innovative coding and agile methodologies. Collaborative and proactive, I deliver high-impact software solutions that enhance user experience.

TECHNICAL SKILLS

Backend Technologies : C#, ASP.NET MVC, ASP.NET WebForms, Windows Forms, .NET Core.

Rest API. Database & ORM : SQL Server, ADO.NET, Entity Framework (EF/EF Core), LINQ.

Frontend Technologies : JavaScript, Angular, jQuery, HTML, CSS, Bootstrap, AJAX, JSON.

DevOps & Tools : GitHub, Dependency Injection, SOLID Principles.

WORK EXPERIENCE

Stark Technology & Staffing Solutions

Software Developer

Aug 2024 – Present

- Designed & coded complex web pages and business modules using C#, ASP.NET MVC, and ADO.NET.
- Optimized database performance by creating & fine-tuning stored procedures, triggers, & SQL queries.
- Enhanced user interfaces with responsive designs using JavaScript, jQuery, HTML, CSS, and AJAX
- Developed high-performance, scalable ASP.NET applications from design through deployment.
- Collaborated directly with clients to gather requirements & deliver customized, user-focused solution.
- Actively participated in agile processes, including daily stand-ups, code reviews, and sprint planning.
- Mentored junior developers and coordinated with onsite/offshore teams to ensure project success.
- Ensured robust application performance through comprehensive testing, debugging, & documentation.

Trainee Software Developer

Dec 2023- May 2024

- Developed dynamic web pages using JavaScript, jQuery, HTML, and CSS to enhance user experience.
 - Assisted in developing and deploying ASP.NET applications, gaining practical experience across the software development lifecycle.
 - Assisted in database activities by applying best practices in writing SQL queries and stored procedures.
 - Supported requirement analysis and documentation, translating client needs into technical specifications.
 - Contributed to coding, debugging, and testing tasks under the guidance of senior developers.
 - Actively engaged in agile team meetings, stand-ups, and code reviews, building strong collaboration and problem-solving skills
-

EDUCATION

Master of Computer Applications (MCA)

April 2024

KBC North Maharashtra University, Jalgaon

CGPA : 8.06

PROJECTS

SEDU ERP –

Technology : C#, ASP.NET MVC, ADO.NET, LINQ, SQL Server, Web API, JavaScript, jQuery, AJAX.

- Contributed to the SEDU ERP project as a .NET Developer, collaborating with the team to build a scalable web application using C#, ASP.NET MVC, SQL Server, JavaScript, jQuery, and AJAX.
- Assisted in optimizing the database for student records, attendance, and transactions by supporting indexing and query optimization to ensure data accuracy and improved performance.
- Implemented Role-Based Access Control (RBAC) for HODs and Trainers, and developed RESTful APIs to integrate ERP modules for active users.
- Developed and maintained a responsive UI with Bootstrap, jQuery, and AJAX; collaborated with the team using Git and GitHub for version control and deployment.

EverUnion -

Technology : C#, ASP.NET Core/MVC, Angular ,Entity Framework, SQL Server, HTML, CSS, JS, jQuery.

- Developed and deployed a full-stack EverUnion using C# and ASP.NET Core MVC, designed to manage user profiles, matching algorithms, and paid subscriptions.
- Designed and optimized the SQL Server database schema to efficiently manage user profiles, preferences, and transaction history, ensuring high data accuracy and retrieval speed

S-VISIT -

Technology: C#, WinForms, ADO.NET, SQL Server, Siticone Plugin for UI

- Developed a desktop-based S-VISIT using C# WinForms to manage and track visitor and staff access across multiple user levels (Admin, Administrator, and Receptionist).
- Designed a modern and user-friendly interface using Siticone UI components to enhance the user experience and maintain a consistent application look and feel.
- Implemented secure authentication with OTP verification via email for “Forgot Password” functionality, improving data security and user convenience.
- Used ADO.NET for database connectivity and CRUD operations, enabling smooth handling of visitor details, staff records, and check-in/check-out logs.
- Designed a SQL Server database to efficiently store and retrieve visitor information and system logs for reporting and audit purposes.

AWARDS & ACHIEVEMENTS

- **Infosys BPM** : Soft Skills Development Program
- **IBM SkillsBuild** : Best Practices for Interview Preparation

ACKNOWLEDGEMENT

I am grateful to my mentors, colleagues, and family for their guidance and support in shaping my professional journey.
