Objective

Dedicated and adaptable professional with experience in cybersecurity, IT infrastructure, and academic teaching, seeking opportunities to utilize technical expertise and problem-solving skills in a dynamic environment.

Experience

- HCL technologies**
- 2023 - 2024
- Graduate Engineer Trainee

During my tenure at HCL Technologies, I gained practical experience in enterprise IT operations, infrastructure monitoring, and security management. My responsibilities involved both hands-on technical tasks and collaborative problem-solving with cross-functional teams.

Key Responsibilities & Skills:

- Assisted in network monitoring and troubleshooting using tools such as Wireshark, SolarWinds, and Nagios.
- Worked on endpoint security and compliance monitoring through Symantec Endpoint Protection and McAfee ePO.
- Supported system performance management using log monitoring tools like Splunk and ServiceNow ITSM for incident handling and ticketing.
- Gained exposure to server and virtualization platforms such as VMware vSphere and Microsoft Active Directory for user and access management.
- Assisted in routine data backup and recovery operations, ensuring business continuity and security.
- Documented daily operations, incident reports, and prepared technical documentation for future reference.

Tools & Technologies Used:

Monitoring & Security: Splunk, Nagios, SolarWinds, Wireshark,
Endpoint Security: Symantec Endpoint Protection, McAfee ePO
Infrastructure & Administration: VMware vSphere, Active Directory, Windows/Linux servers
ITSM: ServiceNow, Remedy

- Linesha And Thevan Software Technologies(Remote Work Contract Based)**
- 2021 - 2023
- Security Analyst

- Provided cybersecurity support to small businesses, startups, and remote clients across different sectors (IT services, e-commerce, and education).
Monitored and analyzed network traffic, system logs, and SIEM alerts to detect potential threats.
- Performed vulnerability assessments and penetration testing for client applications and infrastructure.
- Investigated and responded to incidents including phishing attempts, malware infections, and account compromises.
- Implemented patch management, firewall policies, and endpoint protection to secure client systems.
- Assisted clients with cybersecurity best practices such as password policies, multi-factor authentication, and secure remote access.
- Prepared security reports and risk assessments to help clients improve compliance and resilience.

- **Freelancing**

01/10/2024 -

Freelancer

Designed and developed responsive, SEO-friendly websites for clients using HTML, CSS, JavaScript, React, and WordPress.

Built e-commerce and portfolio sites with focus on clean UI, fast performance, and mobile compatibility.

Handled complete project cycle – from client consultation to deployment and post-launch maintenance.

Managed hosting, domain setup, and version control using Git and GitHub.

Education

Course / Degree	School / University	Grade / Score	Year
B. Tech in Computer Science And Engineering	RVR AND JC College Of Engineering	8.2/10	2020-2023
Diploma In Computer Engineering	Cr Polytechnic	95.91/100	2017-2020
SSC	Sri Chaitanya School	9.8/10	2016-2017

Skills

- Cybersecurity Tools & Monitoring: SIEM (Splunk, Wazuh, ELK), IDS/IPS, Endpoint Protection
- Operating Systems & Platforms: Windows Server, Linux, Cloud Environments (AWS basics)
- Network Security: Firewalls, VPN, Secure Remote Access, TCP/IP Monitoring
- Web & Application Security: OWASP Top 10, Secure Coding Practices, API Security
- Scripting & Automation: Python / Bash scripting for automating log analysis & alerts

Projects

- **Canada life project**

1. Vulnerability Assessment & Penetration Testing (VAPT)

Conducted penetration testing on client web applications using tools like Burp Suite and Nmap, identified security gaps (OWASP Top 10), and provided remediation steps to improve security posture.

- **Online Airline Reservation System**

Secure Remote Access Implementation

Configured VPN and multi-factor authentication for remote client teams, ensuring secure access to internal systems while reducing unauthorized

- **Edtech Management**

Vulnerability Assessment for EduLearn Online (EdTech Startup)”

Conducted penetration testing and vulnerability scanning for EduLearn’s web portal, identified OWASP Top 10 risks, and implemented fixes to secure student and faculty data.

Certifications

- CCNA R&S: Introduction to Networks
- CCNA R&S: Routing and Switching Essentials
- CCNA R&S: Scaling Networks
- IT Essentials: PC Hardware and Software
- CCNA R&S: Connecting Networks
- AWS entry level certification
- Compia security
- NPTEL certifications

Personal Details

- Personality : indian
- Gender : male

- Date of birth : 17/05/2002
