OBJECTIVE

To become a skilled and valuable software engineer by continuously learning and improving, aligning with the company's mission and vision, and contributing to its growth through innovative and efficient solutions. Eager to grow with the tech community and stay updated with the latest technologies.

EXPERIENCE

Product Developer

QA Touch | DCKAP

📅 2023 - 2025   📍 Chennai, India

Worked as a backend developer for QA Touch, a test management platform, focusing on building and improving product features. Contributed to the development and maintenance of core modules using Laravel, Vue.js, Ajax, Python and other web technologies.

- Developed and optimized backend features using Laravel to support scalable product growth.
- Integrated dynamic user interactions using Ajax for better performance and user experience.
- Collaborated with cross-functional teams to deliver clean, efficient, and maintainable code.

Full Stack Developer Trainee

DCKAP Palli

📅 2022 - 2023   📍 Chennai, India

Completed training and internship focused on full stack development, gaining hands-on experience in both frontend and backend technologies. Worked on real-time projects and received mentorship in frameworks like Laravel, Django, and React.

- Learned and applied core web technologies including HTML, CSS, JavaScript, MySQL and PHP.
- Gained practical experience in modern frameworks such as Laravel, Django, and React.
- Participated in team-based development projects and built a strong foundation in full stack development.

EDUCATION

Bachelor of Computer Application

University of Madras

📅 2024 - Present   📍 Chennai, India

DECE

Central Polytechnic College

📅 2020 - 2022   📍 Chennai, India
