PROJECTS

Kapil It Skill Hub, Hyderabad, Telangana, India

Learning Management System (LMS)
Tech Stack: Java| Spring Boot | REST APIs | ReactJS | MySQL

      Developed a role-based Learning Management System (LMS) with separate logins for Managers, Trainers, and Students. The Manager can register and manage Trainers. Trainers have access to manage Students, create assignments, and view results. Students can log in to view and submit assignments and track their performance. The system includes secure login and logout functionality for all roles using email and ID-based authentication.

- Designed and implemented **REST APIs** to add, fetch, update, and delete user records
- Created **MySQL schema** to store user details and performed CRUD operations via **JPA/Hibernate**.
- Tested endpoints using **Postman** to ensure API correctness and error handling

CERTIFICATIONS

Java Full Stack Development	**Oct 2024 – April 2025**
Java Full Stack Internship Certificate	**April 21th, 2024 – June 30th, 2025**
