SUMMARY:

Professional and results-driven Software Engineer with 2.7 years of experience in the IT industry, specializing in mobile application development using Flutter and Dart. Demonstrated expertise in building high-performance, scalable, and visually engaging applications, implementing robust state management (GetX, Bloc, Provider), and integrating secure REST APIs. Strong command of clean architecture, performance optimization, and code quality, with a proven record of delivering user-centric, production-ready solutions.

WORK EXPERIENCE:

ITShastra (India) Pvt. Ltd.

Software Engineer

26 May 2025 – Present

Software Engineer with 7 months of experience at ITShastra India Pvt. Ltd., specializing in Flutter & Dart development for the banking domain. Delivered 2 live production apps with real-time features and secure integrations. Skilled in GetX, Bloc, Firebase, REST APIs, version control, and modern UI/UX. Focused on building reliable, high-performance mobile applications.

PROJECTS

1) Loan Origination System | May 2025 – August 2025

Managed the **end-to-end loan processing workflow** from application initiation to final disbursement, including **document verification, valuation, legal opinion, CIBIL updates, and sanction processing**. Prepared **process notes with and without deviations**, coordinated with branch teams for approvals, and ensured **secure, compliant, and timely loan disbursement**.

2) RxOffice Valuation | September 2025 – Currently Working

Worked on a **web-based valuation management system** designed to track and manage **commercial and residential valuation workflows**. The platform provides **role-based access**, real-time **status tracking**, and **customized reporting** for stakeholders. Enabled **transparent, accountable, and streamlined valuation processing** from initiation to completion with configurable workflows.

Appzia Technologies Ltd. Pune

Software Engineer

Jan 2024 – April 2025

Results-driven **Flutter Developer** with **2 years** of experience in building cross-platform mobile apps using **Flutter & Dart**. Skilled in **state management (Provider, Bloc, GetX)**, **Firebase**, **REST APIs**, and UI/UX best practices. Published **2 apps** on Play Store/App Store, enhancing performance and user engagement. Passionate about scalable, high-performance mobile solutions and agile development.

PROJECTS

1) **Laundry Service** | Jan 2024 – Apr 2024

Designed and developed a laundry service app using Flutter and Dart, featuring real-time order tracking, seamless scheduling, and secure payments. Integrated push notifications, personalized preferences, and optimized logistics for efficiency. Ensured a responsive UI for iOS and Android, enhancing customer satisfaction through smooth functionality and high service reliability.

2) **Junner Agro Fresh** | May 2024 – July 2024

Developed the Junner Agrofresh App, a dynamic e-commerce platform similar to leading marketplaces. Designed and implemented key features like product management, secure payments, real-time tracking, and a user-friendly interface. Optimized performance for seamless shopping experiences, integrated multiple payment gateways, and enhanced logistics, ensuring efficient order processing and high customer satisfaction.

3) **Car Dealer** | Aug 2024 – April 2025

Experienced in developing and managing car dealer apps that streamline showroom and client sales operations. Skilled in creating user-friendly platforms for browsing, purchasing, and managing vehicle sales. Strong expertise in mobile and web app development, database management, and UI/UX design. Proven ability to enhance customer experience and optimize dealership efficiency. Passionate about leveraging technology to drive automotive sales and improve business performance.

Winspectrum Business Solution , Nagpur

Software Engineer

Feb 2023 – Dec 2023

- ❖ Flutter Developer Intern with hands-on experience in building cross-platform mobile apps using Flutter and Dart. Skilled in UI/UX implementation, API integration, and debugging. Strong problem-solving abilities and a passion for learning new technologies. Collaborated with teams to enhance app performance and user experience. Eager to apply skills in a dynamic environment to develop scalable applications. Enthusiastic about mobile development, clean code, and agile methodologies. Looking for opportunities to contribute effectively while expanding technical expertise.
