Professional Summary

Web Developer with around 1.5 years of professional experience building responsive and scalable web applications using HTML5, CSS3, JavaScript, PHP, and Node.js. Proficient with CodeIgniter framework, and well-versed in integrating third-party APIs. Experienced in relational (MySQL, PostgreSQL) and NoSQL (MongoDB) databases. Skilled in version control with Git and GitHub. Known for clean, maintainable code, strong problem-solving skills, and collaborating effectively within Agile teams to deliver high-quality user experiences.

Professional Experience

Software Engineer, Tecdata IT services Pvt Ltd - July 2024 Present

- Developed and maintained web applications using CodeIgniter, and Node.js.
- Built RESTful APIs and integrated third-party services for scalable backend systems.
- Worked with front-end developers to deliver seamless user experiences.
- Implemented authentication, role-based access control, and data validation for secure web applications.

Project: Web Integration

- Responsible for backend integration of various insurance products, including health and Life insurance.
- Developed and integrated complete policy workflows—from quote generation, KYC processing, proposal submission, and payment handling to final policy download.
- Built and consumed REST APIs to interact with third-party insurance provider systems.
- Ensured data accuracy and process flow integrity across all insurance stages.
- Worked closely with frontend teams to provide seamless and user-friendly experiences.
- Used CodeIgniter to build scalable, maintainable backend services.
