SUMMARY

Full Stack **.NET Developer** with strong expertise in **ASP.NET, ASP.NET Core**, and **SQL Server.**
Proficient in front-end technologies like **HTML, CSS, JavaScript, Bootstrap**, and **jQuery**.
Skilled in building scalable web applications and **RESTful APIs** using modern development practices.
Solid understanding of **OOP, Entity Framework,** and the **.NET CLR** with a focus on clean, efficient code.

SKILLS

- **C#**
- **ASP.NET**
- **MVC.NET**
- **HTML & CSS**
- **ASP.NET CORE**
- **SQL SERVER**
- **BOOTSTRAP**
- **JAVASCRIPT**
- **OOPS**
- **WEB API**

EDUCATION

- Bachelor of Science in Mathematics Form Laxmi Narayana Arts & science Women's College Dharmapuri.

TECHNICAL SKILLS

- **Front-End Development:** HTML, CSS, JavaScript, Bootstrap, jQuery, React is.

- **Back-End Development:** Experienced in ASP.NET, ASP.NET Core, and VB.NET.

- **Database Management:** SQL Server, Entity Framework, ADO.NET, and understanding of OOPS and CLR.

CERTIFICATIONS

- Best Performer Award and Certificate for **Cloud Service for All.**
- Star Performer Award and Certificate for **Cloud Service for All.**

PROFESSIONAL EXPERIENCE

CLOUD SERVICE FOR ALL

FULL STACK DOTNET DEVELOPER   (2024-2025)

- I worked as a **Software Trainee** for 1 year at **Cloud Service For All,** Chennai, where I was involved in full stack development using the .NET framework. My role primarily focused on developing web applications as a **.NET Full Stack Developer,** working extensively with **ASP.NET MVC, C#**, and **SQL Server** for back-end development.

ROLES AND RESPONSIBILITIES

- As a C# **.NET Developer**, I played the role in designing, developing, and maintaining software applications.
Collaborate with cross-functional teams to deliver high- quality solutions that meet our client's needs.

- Passionate about coding, problem-solving, and staying up-to- date with the latest technologies as a **Full Stack Developer**

- As a Full Stack Web Developer have written clean, efficient, and Code while following coding standards in creating website.

DEBUGGING AND TESTING

- Troubleshoot and fix front-end (**HTML, CSS, JavaScript**) and back-end **(C#, SQL)** issues. Develop unit, integration, and end-to-end tests to validate functionality and ensure code quality.

- Collaborate with team members on tests and perform code reviews to ensure code quality. Utilize debugging tools in Visual Studio and browser dev tools to diagnose and fix issues.

PROJECTS

OZONE EVENTS

- **Role: ASP.NET & .NET Core Developer**
- **Duration: 3 months, Team Count: 5, Platform/Tools: Windows Project**
- **Language Used: C# and SQL, Windows Forms, Software Used: MS SQL Server 2019 v.19.1, Visual Studio 2022 v4.7.**
- Developed backend services and RESTful APIs using ASP.NET and .NET Core. Built Windows Forms application for managing events, registrations, and attendees. Implemented user authentication, role-based access, and payment processing. Used MS SQL Server for secure data handling, complex queries, and reporting.

PHARMACY

- **Role: ASP.NET & .NET Core Developer**
- Built backend using ASP.NET/.NET Core for inventory, sales, and prescription management. Developed Windows Forms client for smooth sales processing and prescription tracking. Implemented secure role-based access, data encryption, and input validation. Managed data with MS SQL Server, using stored procedures for efficient CRUD operations.

FASHION E-COMMERCE SHOP

- **Role: ASP.NET Developer | .NET Core Developer | Database Developer.**
- Developed backend in ASP.NET Core to manage import orders, suppliers, and shipment tracking. Created user interface with secure, role-based access and real-time inventory updates. Designed SQL Server database with stored procedures for order processing and reporting. Integrated payment and invoice modules with audit trails for financial compliance.

ULTIMATE CARS

- Role: ASP.NET Core MVC Developer | .NET Core Developer | Database Developer.

- Developed backend using ASP.NET Core MVC and C#, handling user author, car listings, and orders. Designed SQL Server database with tables for cars, users, orders, and payments. Created stored procedures for CRUD operations and optimized queries for performance.
- Built advanced car search/filter features by make, model, price, and year. Enabled sellers to manage listings with image uploads and secure order handling.

RISSHI HOTEL RESIDENCY

- **Role: .NET MVC Developer | .NET Core Developer | Database Developer.**
- Built ASP.NET MVC backend to manage reservations, room bookings, and user authentication. Designed responsive UI with HTML, CSS, and JavaScript for booking and room management. Created SQL Server schema using Entity Framework for rooms, bookings, and payments. Developed billing and payment modules to streamline check-in and check-out processes. Implemented customer and feedback modules to enhance user experience and service quality.

DEBUGGING AND TESTING

- I hereby declare that the information provided above is accurate and true to the best of my knowledge and belief. I take full responsibility for any discrepancies found in the provided details.

Yours Truly,

ISWARYA M
