Dhirajlal Gandhi College of Technology, Salem

B.E. in Mechanical Engineering | *2019 – 2023* | CGPA: 7.9

Sri Sarada Balamandir Boys Mat Higher Secondary School, Salem

SSC: 80% | 2015-2017 | HSC: 62% | 2017 – 2019 |

PROJECTS

Customer Service Software (CSS) - Laravel, PHP, MySQL, Alpine.js, jQuery

- Developed a web-based customer service management system to streamline **complaint handling, service scheduling, and report generation**.
- The system automates complaint entries based on customer service intervals and allows real-time tracking of service performance.
- The process starts with adding customer details and assigning a service status that defines service frequency and duration. Based on this, the system **auto-generates complaint entries and tracks service completion, allowing staff to update, filter, and review reports** efficiently
- Implemented a payment tracking module allowing users to record customer payments, view pending balances, and manage data securely with role-based access control

Inventory Management - Laravel, PHP, MySQL, Alpine.js, jQuery

- Designed and developed a **mobile-optimized Inventory Management System** to simplify product **inward tracking, stock management, and reporting** for on-the-go users.
 - Integrated AJAX-based form submission for seamless data entry and real-time product list updates.
 - Implemented a payment tracking module allowing users to record customer payments, view pending balances, and manage data securely with role-based access control
-
