

Jitendra Suthar

Software Developer

9680892770 | jitendrasuthar342@gmail.com | linkedin.com/in/jitendra-suthar-a93697261 | github.com/JEET-HACKS

PROFILE

Motivated and detail-oriented **Software Developer** with hands-on experience in both **.NET (WebForms, MVC, Core)** and **MERN (MongoDB, Express.js, React.js, Node.js)** stacks. Skilled at designing and developing scalable, high-performance web applications that deliver seamless user experiences. Proficient in building full-stack solutions, implementing secure APIs, managing databases, and integrating tools like **Entity Framework** and **Crystal Reports** for dynamic data reporting. Experienced in working with **SQL Server**, including writing optimized queries, stored procedures, and triggers to enhance application performance and maintain data integrity. Adept at collaborating across teams, optimizing workflows, and applying modern coding practices to ensure efficiency, maintainability, and reliability in software products.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, Bootstrap, React.js

Backend: Node.js, Express.js, C#, .NET WebForms, MVC, .NET Core

Frameworks & Tools: Entity Framework, Crystal Reports

Database: MongoDB, SQL Server

Version Control & Deployment: Git, GitHub, Vercel

EXPERIENCE

Guljag Infotech

Software Developer

Jodhpur, Rajasthan

Sep 2023 – Present

- Designing, developing, and maintaining enterprise-grade web applications using **C#, ASP.NET (WebForms & MVC)**, and **SQL Server**.
- Built and enhanced the **Vehicle Management System**, automating key operations such as service tracking, billing, and reporting to improve efficiency and reduce manual errors.
- Developed and optimized complex **SQL queries, stored procedures, and triggers** to enhance performance and maintain database integrity.
- Implemented dynamic data visualizations and reports using **Crystal Reports** and **Entity Framework**.
- Collaborated with cross-functional teams to integrate backend APIs with responsive front-end modules built using **JavaScript** and **Bootstrap**.

PROJECTS

Vehicle Management System | *MERN, Git, GitHub, Vercel, Render*

Sept. 2023 – Oct. 2023

- Full-stack web application to manage vehicle service records and customer details.
- Built with MongoDB, Express.js, React.js, Node.js.
- Implemented login authentication, billing system, and dashboard analytics.
- Deployed using Vercel and Render.

Bank Application (Internship) | *C#, SQL, JS, .NET WebForms*

Apr. 2024 – Jul. 2024

- Internal training project during internship.
- Developed basic banking functionalities like account creation, transactions, and balance tracking.
- Not deployed (training purpose only).

EDUCATION

Aishwarya College of Education

Master of Computer Applications (MCA), CGPA: 80+

Jodhpur, Rajasthan

Aug. 2022 – Jun. 2024

Aishwarya College of Education

Bachelor of Computer Applications (BCA), CGPA: 80+

Jodhpur, Rajasthan

Aug. 2019 – Jun. 2022
