PHP
Scripting

💼 Professional Experience

Fullstack developer,
Yamee cluster private limited
06/2023 – present | Chennai, India

📁 Projects

SCHOOL ERP SYSTEM
React.js , Laravel , MySQL

The School ERP System is a comprehensive, modular web-based application designed to manage all core administrative, academic, and operational processes of an educational institution. It streamlines the workflow for students, staff, administrators, and other stakeholders by integrating various functional modules into a single platform.

ENGINEERING FACTORIES - finance solution,
HTML,CSS, BOOTSTRAP, JAVASCRİPT, AJAX,
REACTJS, PHP,MYSQL
Developed a responsive full-stack web app for Engineer Factories, integrating a mobile-friendly UI with HTML, CSS, Bootstrap, and JavaScript. Built a PHP/MySQL backend with a role-based admin panel supporting Superadmin, Admin, and Supervisor access.
