"I Develop for People & Profit"

SUMMARY

Motivated and detail-oriented **Software Developer with 2 years** of professional experience in building scalable web applications. Proficient in **HTML, CSS, JavaScript, Core PHP, Laravel, Node.js, Express.js, React.js, and MySQL/PostgreSQL,** with a strong focus on backend development, API integration, and database optimization. Skilled in collaborating with cross-functional teams to deliver high-quality solutions aligned with business goals. Seeking a challenging Backend/Web Developer position within a dynamic organization to further enhance my expertise while contributing to organizational success

---

SKILLS

Technical Skills — Backend & Databases: PHP, Laravel, Express.js,Node.js,Python PostgreSQL, SQL
APIs & Libraries: REST APIs
Frontend & Web: HTML, CSS, JavaScript,J query,React.js
Tools & Version Control: GitHub, VS Code, JIRA
Soft Skills: Collaboration Leadership Communication Critical & Creative Thinking Problem-Solving, Presentation

---

EXPERIENCE

DCKAP Technologies - Product Developer

Apr 2024 - Present | Chennai (Remote)

- Built and maintained scalable **Laravel** applications and **REST APIs** for core product features and third-party integrations.
- Implemented **role-based access control, authentication,** and automation using **Scheduler & Queues.**
- Collaborated with **product managers** and **senior developers** to translate business needs, **debug issues,** and **enhance features**.
- Fixed **bugs** and developed small enhancements in **Laravel backend and React.js frontend,** improving performance and user experience
- Reviewed, **tested**, and maintained **code** to ensure **reliability, scalability,** and best practices across the product lifecycle.

DCKAP Technologies - Research & Development

Sep 2023 - Mar 2024 | Chennai

- Developed and maintained **backend** systems for a knowledge base application using **Node.js and Express.js.**
- Designed and implemented **REST APIs**, seamlessly integrated with **React.js frontend.**
- Performed **database schema** design, queries, and aggregations in **PostgreSQL** to optimize performance.
- Conducted thorough **testing** and **debugging** of APIs and database operations, ensuring reliability
- Deployed applications to live production environments, **reducing** response times and **improving efficiency.**

DCKAP Technologies - Software Developer Trainee

Sep 2022- Sep 2023 | Chennai

- Trained in **full-stack development**,specializing in PHP backend & databasemanagement.
- Solved **technical problems**, gaining strong **debugging & analytical skills.**
- Built practice projects integrating **frontend & backend** components.
- Participated in **code reviews**, adopting clean coding practices.
- Served as Vice President – VPE at DCKAP Rhinos Toastmasters, **enhancing communication & leadership.**

PROJECTS

Blogging Website in Laravel (Learning Project)

- Developed the Blogging Website utilizing the Laravel Framework, ensuring efficient structure and database architecture.

E-Commerce Site in Laravel (Learning Project)

- Built a dynamic web application integrating client-side and server-side functionalities using Laravel, jQuery, and Bootstrap.

Dynamic Database Creation PHP (Learning Project)

- Constructed a dynamic web application using Core PHP and MySQL database.

Online Music Application PHP

- Developed a server-side dynamic web application using Core PHP with a MySQL database.

KEY ACHIEVEMENTS

- Solved **216 coding problems on Codewars**, showcasing strong problem-solving and programming skills.

- Served as **Vice President – Education Relations** at DCKAP Rhinos Toastmasters Club, strengthening **communication, public speaking, and leadership abilities**

VOLUNTEERING

DCKAP PALLI - Javascript Training

- **Conducted JavaScript training (Basic to Advanced)** for the next batch of students at DCKAP Palli, guiding them through core and advanced programming concepts.
- Covered topics from **fundamentals** (variables, data types, functions, loops, DOM manipulation) to **advanced concepts** (ES6 features, asynchronous programming, API integration, and project building)
- Designed and delivered **interactive sessions with hands-on coding exercises**, enabling students to apply concepts in real-world scenarios.

CERTIFICATES

- Laravel 9.0 Essential Training
- PHP OOPS
- Javascript (GUVI& HCL)
- Certified Laravel (Pentalog)
- Laravel Testdome
- Certified Laravel (StudySection)
- Mastering Laravel Framework and PHP (Coursera)
- SQL (HACKER RANK)
- Javacsript (Sololearn)
- SQL (Learnz Development Hub)
