About Me

Developer with hands-on experience in designing and developing ERP, Accounting, and HMS modules using Laravel, PHP, and modern JavaScript frameworks. Skilled in building responsive, scalable web applications and integrating RESTful APIs. Strong problem-solver passionate about delivering clean, maintainable code and innovative digital solutions. Experienced in collaborative team projects.

WORK EXPERIENCE

TCUBE — Software Developer
📅 **Dec 2024 – Present | Chennai, India**
- Developed and maintained ERP and HMS modules using Laravel, PHP, and Vue.js.
- Optimized queries and caching to improve system performance.
- Integrated REST APIs and enhanced UI responsiveness.

TCUBE — Full Stack Developer Intern
📅 **Sep 2024 – Nov 2024 | Chennai, India**
- Built and optimized web applications with Laravel, MySQL, and jQuery.
- Suggested improvements that accelerated delivery cycles.

Oracle — Full Stack Developer Intern
📅 **Jun 2024 – Jul 2024 | Chennai, India**
- Created responsive web apps using React.js and Node.js.
- Designed and tested backend APIs with MongoDB Atlas.

Freelance Full Stack Developer
📅 **2023 – Present | Remote**
- Delivered multiple freelance projects for global clients.
- Built custom web solutions focusing on performance and usability.
- Managed end-to-end development, from planning to deployment.

ADDITIONAL INFORMATION

- **Soft Skills:** Problem-solving, Teamwork, Adaptability, Communication
- **Languages:** English, Tamil
- **Availability:** Open to full-time and freelance opportunities
- **Interests:** Photography, Technology, Creative Design

KEY PROJECTS

Institution Management System | Laravel, Vue.js, MySQL
- Developed a full-stack system to manage student records, Fees and attendance.

IoT Bot with Speech Recognition | Raspberry Pi, Python
- Built an IoT-based robot capable of guiding users via voice commands.

Task Scheduling Platform | React.js, Node.js, MySQL
- Created a scheduling system for mentor-student sessions with real-time updates.
