
Power Platform Developer | Senior Software Engineer

PROFESSIONAL SUMMARY

Senior Software Engineer with 3+ years of experience in designing and implementing low-code solutions using Microsoft Power Platform — including Power Apps (Canvas & Model-Driven), Power Automate. Recently upskilled in Copilot Studio and AI Builder to build conversational AI experiences and intelligent automations. Strong expertise in SharePoint Online, SQL Server and workflow optimization.

TECHNICAL SKILLS

- **Microsoft Power Platform:** Power Apps (Canvas & Model Driven Apps), Power Automate
 - **SharePoint:** SharePoint Online, SharePoint 2019 On-Premises, SPFx, JSON Formatting
 - **Databases:** SQL Server (Queries, Stored Procedures, Backup & Restore)
 - **Tools & Platforms:** Postman, ServiceNow, Microsoft Project Professional
 - **Web Technologies:** HTML, CSS
 - **Microsoft Copilot Studio** – Copilot Agents Development, Prompt Engineering, AI-driven Workflow Automation
-

WORK EXPERIENCE

Senior Software Engineer: Capgemini Technology Services India Ltd

09/2022

Present

- SharePoint Customization: Designed, developed, and deployed 10+ SharePoint sites, customized to client needs, incorporating automated workflows, webhooks, and JSON formatting in libraries to enhance functionality and streamline operations.
 - Developed 15+ Power Apps forms based on SharePoint lists, replacing third-party Nintex solutions to enhance integration, improve usability, and significantly reduce licensing costs.
 - Developed automated Power Automate flows to streamline daily tasks such as approval processes and data synchronization—reducing manual effort by 40% and improving consistency across systems.
 - Managed and executed numerous change request tickets for project enhancements, ensuring timely resolution and alignment with client requirements, while maintaining seamless project progression.
 - Managed and maintained SQL Server databases for 30+ SharePoint sites, ensuring data security and efficient storage, and executing regular backups and restorations.
 - Built customized project templates in Project Professional, aligning with client requirements and streamlining project setup, ensuring consistency and efficiency across multiple projects.
 - Collaborated with business stakeholders to analyse requirements, design scalable low-code solutions, and automate repetitive manual tasks using Power Platform tools.
 - Utilized Postman for API testing and validation, ensuring reliable data exchange between Power Platform and external systems.
 - Collaborated with cross-functional teams to deliver end-to-end Power Platform solutions, improving workflow efficiency and user adoption.
 - Documented workflows, application designs, and data models, contributing to efficient knowledge transfer and future maintenance.
 - Developed and integrated Copilot Agents within SharePoint Online to automate data retrieval, streamline user queries, and reduce manual navigation efforts for business teams.
-

PROJECTS

Stora Enso (02/2023-Present)

- Converted 15+ third-party Nintex forms into **Power Apps**, improving integration with SharePoint and Power Automate while reducing licensing costs and streamlining business processes with responsive, user-friendly designs.
- Designed and built **Power Automate** flows integrated with SharePoint to automate list and document processes, streamline approvals, and reduce manual effort in daily operations.
- Utilized Postman for API testing to ensure seamless integration between Power Automate, SharePoint, and external systems, enhancing workflow reliability.
- Managed **change request tickets** via ServiceNow to deliver project enhancements, ensuring timely resolution and alignment with client requirements.
- Took end-to-end ownership of **SharePoint site development**, from planning and design to deployment, improving team productivity and document management efficiency.
- Built and integrated **Copilot Agents** within SharePoint Online to automate data retrieval, improve user productivity, and streamline internal processes.

EDUCATION

Guru Nanak Dev Engineering College

Bachelor of Engineering - Computer Science & Engineering (2018-2022)

8.5 CGPA

CERTIFICATES

- **Microsoft Certified:** AZ-900 Microsoft Azure Fundamentals
 - **Microsoft Certified:** AI-900 Azure AI Fundamentals
 - **Oracle Cloud Infrastructure 2025 Certified Foundations Associate**
-

ACHIEVEMENTS

- Rockstar Award in recognition of dedication and impactful contributions to organizational success
- Super Heroes Award for outstanding performance
