

Mohammed Aathil A S

Full Stack Software Developer

mohammedaathil818@gmail.com | +91 9500640021 | [Linkedin profile](#)

PROFILE SUMMARY

- PHP Developer with 3 years of experience building and maintaining scalable web applications using Laravel (framework), JavaScript, and jQuery.
- Proficient in creating robust **RESTful APIs**, handling complex backend logic, and integrating modern frontend features to deliver seamless user experiences.
- Skilled in **AJAX**, **jQuery**, and **JavaScript** for dynamic content handling and interactive UI components.
- Adept in full-stack development, version control, and Agile workflows, with contributions to automation tools and client-server architectures.
- Strong background in MVC frameworks, backend optimizations, and cross-functional collaboration across engineering teams.

TECHNICAL SKILLS

Frontend Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery, AJAX

Backend Technologies: PHP, Laravel, Python (automation & API), FastAPI

Database: MySQL, PostgreSQL

Tools & Platforms: GitHub, Postman, Visual Studio Code, Figma

Others: RESTful API Integration, JWT Authentication, Browser Automation with Python (Selenium, BeautifulSoup)

WORK EXPERIENCE

Ecesis Technologies

Sep 2022 - Current

Software Engineer

- Built and maintained Laravel applications with dynamic, secure, and scalable features.
- Developed reusable Blade components and integrated real-time data updates using AJAX and jQuery.
- Created responsive layouts and dashboards with enhanced UX using Bootstrap and JS.
- Designed RESTful APIs in Laravel with JWT authentication and MySQL integration.
- Built custom scripts in Python for automation, improving BPO workflows by over 35%.
- Collaborated on team projects using Core PHP, Agile methodology, version control with Git, and Jira-style task tracking

PROJECTS

Smash Factor | *HTML, CSS, Laravel, AJAX, JQuery, JavaScript*

- Developed a dynamic web interface for a virtual golf platform using Laravel and Blade.
- Used **AJAX** for real-time updates and **Laravel Blade** for efficient dynamic content rendering in **slot booking functionalities** and **membership management systems**.

BPO Task Automation | *Python, Web Scraping Library, MySQL*

- Developed **Python-based portal automation scripts** for BPO operations, reducing manual workload and improving task efficiency.
- Automated **login flows** including complex scenarios involving **multi-factor authentication (MFA) bypass** for uninterrupted access.
- Proficient in browser automation using Selenium and the BeautifulSoup library.

EDUCATION

Master of Computer Applications (MCA) (80%)

Udhaya School of Engineering, Nagercoil | 2023-2025

Bachelor of Computer Applications (BCA) (82%)

Noorul Islam College of Arts and Science, Thuckalay | 2019-2022

SOFT SKILLS

- Passion for learning and growth
- Teamwork and collaboration
- Adaptability and Continuous learning

LANGUAGES

- English - Fluent
- Tamil - Fluent
