

# Mustafa Ansari

## Android Developer

📞 8210367267 📍 New Delhi

---

### Profile

---

As an Android Developer with 1.5 years of experience, I build and deploy high-performance apps using Java, Kotlin, and Jetpack Compose. I work confidently with Spring Boot, MVVM, Room, Retrofit, SQL Server, .NET, and Postman, delivering clean UI designs, strong API integrations, and reliable, well-tested solutions. I excel in both independent and team-driven development environments.

---

### WORK EXPERIENCE

---

#### Android Developer

10/2024 – Present

*Dash Technologies And Labels Private Limited*

New Delhi

- Built and deployed Android apps on the Play Store using Kotlin and Jetpack Compose.
- Delivered smooth backend performance with Spring Boot and JAR deployments via RDP.
- Optimized SQL Server databases for efficient data handling.
- Ensured strong integrations through API testing with Postman.
- Developed a Bluetooth Thermal Printer app using MVVM, Room, and API sync.
- Created an offline-first Material Shipping Management app to streamline workflows.

---

### EDUCATION

---

#### MCA

11/2022 – 07/2024

*Guru Ghasidas Vishwavidyalaya*

Bilaspur, CG

MCA (2024) with strong foundations in algorithms, advanced programming, ML basics, and database management, strengthened through hands-on labs and project work.

#### B.Sc (H) Electronics Science

07/2019 – 07/2022

*University OF Delhi*

New Delhi

B.Sc (H) Electronics Science (2022), University of Delhi, with strong fundamentals in electronic systems and digital design, strengthened through hands-on engineering labs.

## SKILLS

**Android** — Java, Kotlin, Jetpack Compose, MVVM, Room, Retrofit, XML UI, ViewModel, LiveData.

**Spring Boot** — MVC structure, REST APIs, JAR deployment, server-side logic, SQL integration, authentication, data handling, and Postman testing.

**SQL Server** — Basic queries, stored procedures, table joins, data integrity, and efficient data handling.

**ASP.NET** — REST API development, form-based web apps, server-side logic, MVC structure, and API integration.

**React** — UI components, custom tags, API fetching, JavaScript, HTML/CSS, data passing, state/props management.

## INTERNSHIPS

### Android Developer

Dash Technologies And Labels Private Limited

12/2023 – 04/2024

Remote

Developed an Android app for product authenticity verification using QR scanning with Spring Boot APIs for multi-state validation, delivering fast, accurate results, real-time details, and a smooth, user-friendly experience.

### Android Developer

Analysed Services

09/2023 – 12/2023

Remote

Managed backend databases, designed user-friendly UI layouts, fixed bugs, and implemented pending features to ensure reliable, high-performing applications.
