PROFESSIONAL SUMMARY

Dynamic Software Developer with experience of 2.5 years with a proven track record at Loyltworks IT Pvt Ltd , enhancing software efficiency through effective problem-solving and bug resolution. Proficient in Java and Kotlin, I excel in mobile app development with REST API integration , delivering user-friendly solutions that meet client needs. Passionate about optimizing code performance and driving project success.

EXPERIENCE

Software Developer, 09/2023 - 11/2025

Loyltworks IT Pvt Ltd – Bengaluru, India (2 years)

- Improved software efficiency by troubleshooting and resolving coding issues.
- Project management by identifying and fixing bugs before product deployment.
- I worked as an Android developer, in which I worked on my company's product, where we were providing loyalty services. Where users can get various services on mobile apps.
- A loyalty program is a marketing strategy that encourages repeat business by rewarding customers for their purchases and engagement. These programs offer benefits such as discounts, points, exclusive access, or cash back in exchange for customer loyalty.
- I worked in the design, development, and bug fixing of mobile apps.
- I created an Android project from scratch, as the client's requirements.

Software Developer Intern, 02/2023 - 08/2023

Trigensoft Solutons Pvt Ltd – Pune, India (Remote) (6 months)

- Collaborated with team members to design, develop a user-friendly software product.
- Worked with developers to identify and remove software bugs.
- Optimized code performance by identifying bottlenecks and refactoring for improved efficiency.
- Wrote clear, clean code for various projects.
