-

Professional Experience

Tata Consultancy Services (TCS) - Senior Power Platform Developer

Dec 2021 – Present | Bangalore, India

Key Responsibilities:

- Designed and implemented Power Apps (Canvas and Model-Driven) to meet complex business needs.
 - Automated workflows with Power Automate, ensuring compliance and escalation notifications.
 - Integrated SharePoint Online, Outlook, and custom connectors to streamline operations.
 - Ensured secure design using field-level, form-level, and role-based access controls.
 - Collaborated with business stakeholders, testers, and analysts for smooth deployment.
 - Delivered training, documentation, and onboarding sessions for internal teams.
 - Followed Agile methodologies and participated in sprint planning and retrospectives.
-

Key Projects

1. Travel Ticket Booking System

✳ Power Apps (Canvas), Power Automate, SharePoint Online

- Developed a travel booking solution with multi-level approvals and compliance tracking.

- Integrated calendar views and dynamic controls; implemented audit trails.

2. Tool Cart Management System

✂ Power Pages, Model-Driven Apps, Microsoft Dataverse

- Built a secure Power Pages portal with user roles: anonymous, authenticated, admin.
- Enabled rich UI with dynamic views, templates, and role-based permissions.

3. ASIC Regression & Risk Management Platform

✂ Power Apps, Power Automate, SharePoint Online, Outlook

- Led the development of a compliance platform for a top banking client.
 - Automated daily/monthly ASIC workflows with scheduled flows and notifications.
 - Built dashboards and reporting tools for incident tracking and risk enrolment.
-
