

Summary

I am a qualified and professional web developer with 2+ years of experience in database administration and website design and development.

Technical Summary

1. **Front-end Development:** Expertise in building responsive, dynamic web applications using HTML5, CSS3, Java Script to deliver seamless user experiences.
2. **Back-end Development:** Proficient in developing robust server-side applications with .NET Core and ASP.NET using C#, ensuring efficient business logic and API integration.
3. **Database Management:** Strong experience in designing, querying, and optimizing databases using SQL Server and PostgreSQL.
4. **API Integration:** Skilled in creating and consuming RESTful APIs, ensuring smooth communication between front-end and back-end systems.
5. **Version Control:** Proficient in using Git for version control and collaboration with teams.
6. **Tools & Frameworks:** Familiar with Visual Studio for development, Postman for API testing, Swagger for API documentation and Pg-admin for database management.
