PROFESSIONAL SUMMARY

Full Stack and MERN Stack Developer with 3+ years of experience in building scalable web applications using PHP, Node.js, Python and React.js, and modern frontend frameworks (Laravel, Codeignitor). Skilled in developing CMS-based and e-commerce solutions with WordPress/WooCommerce, and experienced in RESTful APIs, database design, and microservices architecture. Strong in UI implementation, API integration, debugging, optimizations, and delivering user-centric solutions. Passionate about learning new technologies and solving real-world problems.

TECHNICAL SKILLS:

- **Programming Languages:** JavaScript (ES6+), TypeScript, Python, HTML5, CSS3
- **Frontend:** React.js, Next.js, Redux Toolkit, Context API
- **Backend:** PHP, Node.js, Express.js, REST APIs, Authentication (JWT, OAuth2, Keycloak)
- **Databases:** MongoDB, MySQL, SQL
- **UI/Styling Libraries:** Ant Design, Material UI, Tailwind CSS, Bootstrap 5
- **Data Visualization:** Power BI, Chart.js, ApexCharts
- **Tools & Platforms:** VS Code, Git, GitHub, GitLab, Jira, Postman, Jenkins, WordPress (WooCommerce)
- **Frame Works:** Laravel, Codeigniter
- **Other:** CI/CD basics, session management, caching & performance optimisation.

SOFT SKILLS:

- Demonstrated **strategic planning** by organizing development milestones to meet project and business goals.
- Applied strong **problem-solving** skills to resolve complex backend issues and prevent production delays.
- Utilized effective **troubleshooting** to diagnose and fix API, database, and UI errors quickly.
- Practiced **team collaboration** by working closely with designers, developers, and QA to deliver features smoothly.
- Maintained **high attention to detail** by delivering clean code, accurate APIs, and pixel-perfect interfaces.
- Demonstrated **adaptability to change** by quickly learning new tools and adjusting to shifting project requirements.

EDUCATIONAL QUALIFICATION:

Sree Rama Engineering College,
B.Tech

Tirupati
AUGUST 2020

WORK EXPERIENCE:

DevRabbit It Solutions Pvt Ltd.

Hyderabad

SENIOR DEVELOPER

Nov 2022 – Present

- Developed and maintained scalable PHP, Python and Node.js-based applications.
- Built RESTful APIs consumed by web, mobile, TV, and kiosk applications.
- Implemented MERN-based modules including reusable React components.
- Managed database design, MySQL queries, MongoDB collections, and performance tuning.
- Automated scheduled tasks using cron jobs.
- Collaborated with cross-functional teams for requirement gathering, KT sessions, and client support.
- Performed code reviews, optimized backend performance, and ensured API security.

DevRabbit It Solutions Pvt Ltd.

Tirupati

INTERN

June/2022 – Nov/2022

- Assisted in backend development using **PHP, PYTHON, NODE.js, HTML, CSS** supporting web applications.
- Worked on API development and database management using **MySQL & MonogoDB**
- Gained hands-on experience in **debugging, code optimization**, and **team collaboration**.
- Learned and applied best practices for software development in an **Agile environment**.

PROJECTS:

1. Notifii - Role: Full Stack Developer

Tech: PHP, MySQL, JavaScript, Linux, Git, Apache, AJAX, HTML, CSS, JQuery, Jira, Postman

- Delivered backend services and REST APIs powering mobile, TV, kiosk, and web platforms.
- Integrated 3rd-party APIs (Twilio, SendGrid, etc.) and optimized request/response flows.
- Developed responsive web modules and enhanced UI workflows for improved user experience.

2. Tuterbuy - Role: MERN Stack Developer

Tech: React.js, Node.js, Express.js, MongoDB, Redux, JWT Auth, AWS, Postman

- Built interactive learning modules, dashboards, and course delivery components similar to BYJU'S.
- Developed secure authentication flows, optimized API performance, and implemented multimedia features.
- Integrated teacher–student interaction tools and managed scalable backend services.
