ABOUT SUMMARY

Android Developer with 1 year of experience building high-quality mobile apps using Kotlin and MVVM. Skilled in API integration (Retrofit), Firebase real-time features, Glide, and clean architecture. Delivered core features for IOTT and Zenn News, including authentication, Google Sign-In, notifications, and offline/local storage. Passionate about writing clean code and creating smooth, scalable user experiences.

EDUCATION

Welfare Institute Of Science Technology And Management	2020 - 2024
<i>B.Tech Computer Science and Engineering</i>	<i>CGPA: 7.97</i>
Narayana Junior College	2018 - 2020
<i>M.P.C</i>	<i>CGPA: 6.89</i>
Kairali English Medium High School	2018
	<i>GPA: 8.0</i>

SKILLS

Languages: C, HTML,CSS,JAVA,KOTLIN,PYTHON
Tools: VScode,Eclipse,Android Studio
Networking Libraries: Retrofit,Volley
Architecture Patterns: MVVM
Database:MySql,Firebase

EXPERIENCE

NITHISH SOFTWARE SOLUTIONS	DEC 2024 - NOV 2025
<i>Android Developer</i>	

PROJECTS

IOTT OTT PLATFORM APP <i>Android Studio, Kotlin, MVVM, Retrofit, ExoPlayer, Firebase</i>	2025
<ul style="list-style-type: none">Developed an OTT streaming application that allows users to watch movies, web series, and short videos across various categories.Integrated RESTful APIs using Retrofit for dynamic video content, category lists, and trending sections.Implemented ExoPlayer for seamless video streaming with autoplay functionality and adaptive quality support.Added Watchlist features using MVVM architecture with data persistence through SharedPreferences.Built a clean, responsive UI using Material Design components with smooth navigation via Fragments and RecyclerView.Integrated Firebase for user authentication, push notifications, and analytics monitoring.Tested and validated all APIs using Postman and optimized video load time through caching and lazy loading.	
ZENN NEWS APP <i>Android Studio,Kotlin,MVVM,FireBase,Postman</i>	2025
<ul style="list-style-type: none">YKNews delivers news in 5 Indian languages like Telugu, Hindi, Tamil, Kannada, etc., in a short “flip” format.It shows district and village-level news, making it popular for rural and small-town users.Includes news, jobs, astrology, health tips, entertainment, cricket scores, and viral videos.Swipe up/down to browse short stories; dark mode and bookmarking are available for convenience.Use guest mode or log in for a more personalized feed (varies by app version) .Get breaking news alerts and updates based on your selected location and interests.In supported areas, users can submit local stories or videos to be published on the platform.	
Salary Prediction Using Machine Learning <i>Python,GoogleColab,Libraries(Numpy,Pandas,MatplotLib,SckitLearn)</i>	2022
<ul style="list-style-type: none">Salary prediction using machine learning involves training a model on historical salary data to predict future salaries for individuals. This can be done using various supervised learning algorithms such as linear regression
