Experience

Web Developer, Webixy Technologies Private Limited – Kanpur, Uttar Pradesh June 2024 – Present

- We developed and maintained an admin panel that uses HTML, CSS, JavaScript, PHP, Bootstrap, and MySQL to implement robust CRUD (Create, Read, Update, and Delete) functionality, improving operational efficiency and usability.
- Developed and deployed responsive, user-centric websites using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap, integrating webmail functionality to enhance client communication workflows.
- Hosting, performance optimization, and website security managed through Cloudflare, Truehost, and GoDaddy.

Software Developer, Lionsol Infoway Pvt. Ltd. – Ahmedabad, Gujrat June 2023 – Feb 2024

- Gained hands-on experience in PHP programming and specialized in the CodeIgniter framework for developing scalable web applications.
- Designed and implemented a CRUD (Create, Read, Update, Delete) application using CodeIgniter, showcasing expertise in database management and web application development.
- Contributed to the development of Lionsol Infoway One, a live project utilizing PHP CodeIgniter framework for end-to-end feature implementation and performance optimization.

Software Developer, SYMB Technologies – Noida, Uttar Pradesh Oct 2021 – Dec 2022

- Worked as a Frontend Developer on client-side custom ecommerce web applications, collaborating with a team using Next.js, React.js, and Material UI, Javascript,HTML,CSS.
- Designed and implemented React.js applications, including projects such as a To-Do List App, Pokémon App, Google Keep Clone, WhatsApp Clone, and Weather App.
- Developed and maintained responsive, interactive websites using HTML, CSS, JavaScript, and Bootstrap to enhance user experience and performance.
- Gained hands-on experience with Git and GitHub for version control and successfully pushed and managed personal projects in GitLab.

Projects

Portfolio Landing Page Website

- Designed and developed a dynamic personal portfolio landing page using HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL.
- Implemented a responsive web design to ensure optimal viewing on multiple devices.
- We implemented and hosted the portfolio website on the Infinity Free platform to showcase professional skills and projects effectively.

Portfolio Website

- Built a responsive and lightweight portfolio website using HTML, CSS, JavaScript, and Bootstrap.
- Highlighted personal projects and technical expertise through the website design.
- Successfully hosted the portfolio site on Netlify, ensuring reliable and fast access.

Weather App

- Engineered a dynamic weather application using React.js, HTML, CSS, JavaScript, and Material UI.
- Integrated external APIs to fetch real-time weather data.
- Developed features to display temperature and cloud conditions dynamically for any city.
- Ensured responsive and user-friendly interface for enhanced user experience.

Country App

- Developed a comprehensive web application using HTML, CSS, JavaScript, Material UI, and React.JS.
- Built a React-based platform delivering detailed and user-friendly information about countries worldwide.
- Demonstrated strong proficiency in frontend development technologies and React ecosystem.
- Effectively integrated multiple technologies to create an interactive and informative user experience.

Elevator

- Developed a elevator using HTML, CSS, JavaScript, bootstrap.
- Utilized modern frontend technologies like HTML, CSS, JavaScript, and bootstrap for user interface.
- Focused on user-friendly design ensuring seamless interaction and real-time feedback within the app.
- Demonstrated skills in deploying and managing a web app on a cloud platform like Netlify for reliable access and performance.
