📍 Faridabad, Haryana

A dedicated Android developer with 2 years of experience building robust, scalable, and user-focused mobile applications using Kotlin and Java. Proficient in Android SDK components, MVVM architecture, and modern UI/UX design principles. Demonstrated success in improving performance, reducing ANRs and crashes, and integrating RESTful APIs. Adept at collaborating with cross-functional teams to deliver high-quality mobile solutions aligned with user needs and business goals.

Experience

Android Developer

Hastree Technologies Pvt Ltd   Sept 2023 – Sept 2025

- Developed and maintained multiple Android applications, ensuring compatibility with various devices and OS versions.
- Collaborated with cross-functional teams, including designers and backend developers, to deliver high-quality mobile applications.
- Worked on Android OS at a platform level, enhancing core system functionality.
- One of the applications achieved 100k+ downloads on Play Store: Baloot Calculator.

Projects

Foodie POS   *2025*

- Developed a POS Android application for multi-branch restaurants, supporting self-ordering and waiter-assisted ordering.
- Real-time synchronization of orders, table bookings, and billing across all devices using Firebase Firestore.
- Integrated APIs through Retrofit to streamline restaurant operations and enhance service efficiency.
- Compatible with Android 15.

DeviceLytics   *2024*

- Built an enterprise Android app to capture real-time device data, including location, sensors, and connectivity events.
- Integrated telephony, messaging, app usage, and installation/uninstallation tracking with detailed logging.
- Implemented instant data publishing via MQTT for secure, real-time synchronization with enterprise servers.

Voila ToDo   *2024*

- Captures screen using Media Projection API and extracts text using OCR.
- Creates to-do's efficiently using AI and handles features via expandable notifications or Floating Icon.
- Implements crashlytics and analytics via Firebase.
- Compatible with Android 15.
- Play Store: Voila ToDo App.

Education

Maharishi Dayanand University

Masters of Computer Application   2021 – 2023

Technical Skills

Languages & Core: Kotlin, Java, Android SDK, XML Layouts, Gradle
Architecture & Patterns: MVVM, Clean Architecture, Dependency Injection
UI & Design: Material Design, Custom Views & Animations
Libraries & Tools: Retrofit, Glide, Room, Firebase, MQTT, RESTful APIs
Version Control & Collaboration: Git, GitHub, GitLab, Trello
Deployment & Debugging: Google Play Console, Debugging, Memory Management
