

SANTHOSHKUMAR S

FLUTTER DEVELOPER

Dedicated Flutter developer with **2+ years** of experience crafting sleek and efficient mobile apps. Proficient in creating seamless user experiences with the latest industry trends.

EXPERIENCE

ECBEE Innovations, Chennai. - Dec 2024 - Present.

Promethean Software Solution, Chennai. - Dec 2023 to Dec 2024

PROJECTS

Food & E-Commerce User App.

Developed a hybrid food delivery + marketplace app for Puducherry with restaurant ordering and e-commerce shopping in one system. Built menu, cart, tracking, CC-Avenue payments, Google Maps, notifications, and time-based food slots with token authentication. Improved performance, implemented search, infinite scroll, and dynamic UI switching between Food and Bazaar modules.

[Play Store URL](#) , [App Store URL](#).

Food & E-Commerce Vendor App.

Multi-mode vendor management app enabling Food or Bazaar workflows with real-time order alerts and product controls. Built delivery-charge logic, Accept/Reject order flow, cooking time input, and FCM alarms active even when app is closed. Includes stock/price management, notification pop-ups, and automatic alarm stop after order status update.

Customer Enquiry App.

Retail enquiry app for FloorNDecor with QR scanning, area-based calculation for tiles/boxes, and pricing estimation. Implemented enquiry submission UI with validation, PDF summary generation, and API-backed product lookup. Designed to simplify showroom interactions and reduce manual measurement + quotation effort.

Organization Management App.

Internal business management app with role-based login (Admin/Manager/Employee etc.). Built dashboards, staff management, order/enquiry modules, and permission-based access. Implemented secure profile handling, large data forms, and modular navigation for enterprise workflows.
