Professional Experience

- Software Engineer — KAPTAS Technologies

September 2021 – Present | Coimbatore, India

- Spearheaded end-to-end project development from requirements to deployment, ensuring on-time and high-quality delivery.
- Managed server configurations, domain setups, hosting environments, and Git version control, ensuring seamless CI/CD processes.
- Collaborated directly with clients in India and abroad to gather requirements and deliver tailored software solutions.
- Promoted from Junior to Senior Developer by demonstrating initiative, problem-solving, and technical leadership.
- Mentored junior developers, fostering a collaborative and high-performance work culture.
- Ensured code quality, security, and performance optimization across all projects.

Notable Projects

- Automate Garage Management System (Sept 2021 – Present)
 - Designed a SaaS-based garage management platform with subscription and permission-based access.
 - Implemented complex logic for tax, accounting, and discount calculations using Laravel.

- Integrated push notifications, email systems, DomPDF, E Invoicing and reusable components to enhance performance.
- Embedded modules with React JS and Angular JS for dynamic interfaces.
- Seamlessly modified and implemented new features based on client queries and evolving business requirements.
- Includes all the Modules such as GST Bills, Payments, GST Reports, Account Ledgers, Appointment, Gate Pass and Receipts.
- WordPress & WooCommerce Projects (Oct 2022 – Present)
 - [Akshaa Nature](#): E-commerce site for cosmetic products with Razorpay integration.
 - [Alpha Twenty](#): Online course platform optimized for user experience and seamless checkout.
 - [Guide to Gizmos](#): Affiliate site showcasing Amazon products with engaging UI/UX.
 - Static Websites: Delivered professional business sites for clients like [Albaroz Solutions](#), [Hansamukh](#), [GK Global](#) and Athenaec.
 - Revamped existing client websites to improve speed, SEO, and usability.
- Event Management System (Kangayam Marathon, Happy Feet Marathon)
 - Developed an integrated solution for registrations, payments, and participant tracking.
 - Added SMS and email automation, improving communication and event analytics.
- Property Management – Rex Depot
 - Created a real estate platform with buyer/seller dashboards, PayPal subscriptions, and auto-pay features.
- ERP Solutions (NNEP, Safvolt, Super Foto)
 - Built full ERP systems handling Sales, Service, POs, Quotations, Material Request, Proforma, Inventory, CRM, Bills, Invoices, Ledgers, Account and job workflows with modular architecture.
- Employee Management System - GECCO
 - Developed internal tools for leave management, petty cash tracking, and task assignment, including a mobile API for multiple clients.

Education

Bachelor of Science – Computer Science

Government College of Arts and Science, Dharmapuri.

July 2018 – May 2021

CGPA 8.447 First class – Distinction with D+ Grade
