SUMMARY

As a devoted junior software developer with over a year of experience in Full Stack Development. I specialize in .NET, C#, Angular, Angular JS, JS, JAVA and SQL. I have successfully contribute to high impact projects including Supply Chain Finance, Leasing, UPI mode mandate registration, PAYTM deep link. I committed myself to providing a complete and timely solution for every task I undertake .I am dedicated to continuous learning, which enables me to tackle challenges effectively and achieve successful project outcomes .I have to succeed in a challenging environment that will provide me with advancement opportunity and allowing me to further develop my career.

EDUCATION

UCE ,BIT Campus
Trichy, Tamil Nadu, India
BTECH in Information Technology
2019 - 2023

SKILL

Programming

- C#
- Angular
- Angular JS
- ASP .NET
- .NET Core
- Entity Framework
- SQL
- HTML
- OOPS
- CSS
- BOOTSRAP
- Responsive website
- Javascript
- Java

Tools/Platforms

- Visual Studio
- Visual Studio Code
- Postman
- Microsoft SQL
- Word
- Excel(Basics)
- Wordpress

CERTIFICATES

Frontend with Angular by Simpli Learn

Agile, Git and C# programming by Simpli Learn

WORK EXPERIENCE

Hinduja Leyland FINANCE – Full Stack Developer   AUG 2023–NOW

- I have carried out end to end development of high impacts projects such as supply chain finance which improves the cash flow of suppliers using Angular JS and ASP .NET.
- Developed a full backend API with.NET Core, integrated with Co-lending platforms(INDIFI,LMF) which facilitates lending money to borrowers.
- Optimize the payment process of bulk customers by using PAYTM deep link, where smart URL'S are shared with customers for easy payment.
- Propose an alternative methods to create a website for enhancing supply chain finance, where customers can directly raise invoices to request loans using Angular for the front end and .NET
- Implemented Field Investigation and UCIC systems to enhance risk management and compliance using Angular and .NET.

PROJECTS

- **Leasing** streamlines the vehicle leasing process by managing applications, payments and contract managements using angular and Entity Framework
- **Supply Chain Finance** streamline transactions, letting users request tranche and check limits easily through a web platforms.
- **ENACH/UPI** Mandate represents a customers one time authorization through netbanking/UPI,to debit amounts from their bank account without the need for further manual payment authorization.
- **Co-Lending** enhances the availability of loans by pooling the resources from multiple lenders, allowing borrowers access to more funds.
- **Paytm deep link** are smart URLS that enable users to make payments via a link at their due dates.
- **Vendor Management System** to integrate vendors into the organizations under a set of policy using ASP .NET and Angular JS.

KEY ACHIEVEMENTS

- Successfully led the implementation of Vendor management by integrating vendors into the organization within a set of timeline and policy framework. I volunteered extra time to ensure high quality results which helped improve the onboarding process by 25 %.
- **Advanced Debugging and Troubleshooting** : Preventing potential escalations and resolved complex issues in real time , ensuring minimal disruption.
- Consistently delivered over 11 **major CRS** on time , contributing to the team's overall success.
