ABOUT ME

- Full Stack Developer with 2.6 years of experience in building scalable and user-friendly web applications. Proficient in Laravel, JavaScript, Bootstrap, and API integrations, with a strong focus on clean code, responsive design, and performance optimization. Passionate about continuous learning and delivering practical, efficient solutions across both front-end and back-end.

EXPERIENCE

Senior Full-Stack Developer

Alabtechnology Pvt Ltd - Chennai

📅 September 2023 - October 2025

- Experienced Full Stack Developer with a strong focus on building responsive web applications, integrating RESTful APIs, and resolving technical issues efficiently. Proven expertise in implementing SMS gateways for notifications, OTPs, and marketing communication.
- Proficient in integrating Razorpay payment gateway for secure and seamless online transactions. Experienced in connecting multiple delivery partner APIs like Shiprocket and Dunzo to enable efficient logistics and real-time tracking.

PROJECTS

On-Demand Services Platform

- Developed a scalable on-demand services platform enabling real-time service booking, scheduling, and user management. Integrated secure payments, SMS/OTP verification, and live tracking to ensure seamless customer and service provider experience.
- Created RESTful APIs to support mobile applications for customers, store partners, and delivery partners, enabling smooth data flow, role-based access, and real-time status updates across all service touchpoints.

Urban Services Management System

- Built a centralized platform for managing diverse urban services such as maintenance, sanitation, utility coordination, and service requests across city zones with real-time status tracking and user-role management.
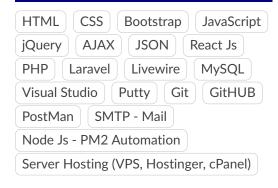

EV Vehicle Asset Management System

- Developed a centralized platform to manage electric vehicle assets, including real-time vehicle tracking, maintenance schedules, and inventory lifecycle reporting.

Food POS System with Third-Party Order Integration

- Developed robust APIs for kitchen partners and customer applications, supporting seamless real-time data exchange. Integrated third-party services.
- Integrated Rista APIs to facilitate real-time order placement and synchronization with Swiggy and Zomato, streamlining multi-channel operations and improving delivery coordination.

Whatshub – Automation Notification Engine

- Integrated Whatshub product into multiple webapps and built full automation for invoices, order status, and plan expiry using WhatsApp, Email, and Cronjobs
