

Vijaykumar Bile

.NET DEVELOPER

8600219531 | vijaybile07@gmail.com | Pune India | <https://www.linkedin.com/in/vijaybile>

PROFESSIONAL OVERVIEW

Results-driven .NET Developer with hands-on experience in building scalable web applications using ASP.NET MVC/Core, C#, and SQL Server. Proficient in developing and consuming RESTful APIs, optimizing performance, and crafting responsive UIs using HTML5, CSS3, JavaScript, and React. Experienced with Agile methodologies, Git-based CI/CD pipelines, IIS, and cloud deployments on AWS. Committed to writing clean, maintainable code and delivering user-centric, enterprise-grade software solutions.

SKILLS

- **Languages:** C#, JavaScript, HTML5, CSS3, Angular
- **Frameworks/Libraries:** ASP.NET MVC/Core, Entity Framework, React, Bootstrap
- **Databases:** SQL Server 2016/2019
- **Web & API:** RESTful APIs, JSON, XML, Swagger, Postman
- **Cloud & Deployment:** AWS, Windows Server, App Services, IIS, Web.config
- **DevOps & Tools:** Git, GitHub, GitHub Actions, Azure DevOps, Visual Studio, VS Code
- **Agile & Management:** Scrum, Jira

WORK EXPERIENCE

InDeft Technology Solutions Pvt Ltd | Pune

Sept 2023 - Present

- **Developed and maintained** responsive web applications using **ASP.NET MVC**, **CSHTML**, and **SQL Server**, ensuring alignment with business logic and performance goals.
- **Built cross-browser compatible UIs** with **HTML5**, **CSS3**, **JavaScript**, and **React**, enhancing user experience and interactivity.
- **Created and consumed RESTful APIs** using **ASP.NET Core Web API** for secure and scalable data integration across web and mobile platforms.
- **Designed and optimized relational databases**, developing **stored procedures**, **functions**, and **complex SQL queries** to ensure efficient data processing and high performance.
- **Configured and managed servers** on **Windows Server** and **IIS**, ensuring secure, stable, and smooth production deployments.
- **Deployed applications to AWS**, configuring **App Services**, **SQL Databases**, and **Storage Accounts** for scalable and reliable cloud infrastructure.
- **Tested APIs** using **Postman**, validating endpoints for **accuracy**, **latency**, **security**, and **data integrity**.
- **Maintained and enhanced legacy .NET Framework applications**, implementing patches, fixing bugs, and upgrading features to improve stability and security.
- **Performed Windows Server migration**, ensuring minimal downtime and full data integrity during the transition.

KEY PROJECTS

Kobelco & Hyundai

- Developed offline data handling and background synchronization to ensure seamless operations during internet outages.
- Implemented robust sync logic for accurate and consistent data transfer between local storage and central systems.
- Designed and delivered interactive business dashboards providing real-time visual insights and analytical reports.
- Generated detailed data reports to support enterprise-level decision-making and performance monitoring.
- Created a **Training Eligibility Module** to identify and display candidates eligible for upcoming training programs.

Sony

- Built a geo-validated attendance system restricting check-ins to authorized outlet locations.
- Designed and deployed RESTful APIs enabling real-time data synchronization across mobile and web platforms.
- Created analytical and payroll reports to automate attendance tracking and enhance reporting efficiency.
- Optimized data processing pipelines, improving accuracy and reducing report generation time.
- Collaborated with cross-functional teams to ensure seamless integration, testing, and delivery in Agile sprints.

EDUCATION

- SJIMT College Narhe | Pune | Master's Computer Application Pursuing
- Sangola College Sangola | Sangola | Bachelor's in Computer Science 2023
