PROFILE

A passionate and detail-oriented Software Developer with a strong foundation in coding, problem-solving, and building scalable web applications. Experienced in working with modern technologies like ASP.NET, C#, SQL Server, and JavaScript frameworks to deliver user-friendly and performance-driven software solutions. Adept at understanding client requirements, collaborating within teams, and continuously learning new tools and trends to stay ahead in the ever-evolving tech industry. Known for writing clean, maintainable code and contributing effectively to both front-end and back-end development. Looking to leverage my skills in a challenging role where I can grow technically while delivering value to the organization.
