

K SATEESH KUMAR

KEY ACHIEVEMENTS

- Project Mentorship Experience
Mentored cross-functional teams through diverse projects, fostering skill development and collaboration, which led to significant improvements in system performance and increased user satisfaction.

SKILLS

Php,Laravel,mysql, .
React,Javascript, .
Jquery,
Ajax,Bootstrap,
Html,CSS

PROJECTS

eSIM

11/2024 - 02/2025

eSIM Application development project.

- Designed, developed, and implemented scalable web applications including a comprehensive eSIM solution, using Agile methodologies, Laravel, PHP, and MySQL.
- Ensured timely delivery, high-quality coding standards, and successful end-to-end execution of multiple projects across different domains.

SUMMARY

I am a results-driven IT professional with over 3 years 3 months of experience specializing in PHP development. My expertise includes Core PHP, Laravel, and modern frontend libraries like React. I have demonstrated proficiency in designing, developing, and maintaining scalable web applications across various sectors, including and enterprise solutions.

EXPERIENCE

PHP Developer Nov 14,2024 to March 11, 2025

Palni India Pvt ltd

- Developed eSIM Application Backend using Laravel, ensuring high performance and modular architecture.
- Integrated eSIMGo APIs for Remote SIM Provisioning (RSP), activation, and profile lifecycle management.
- Designed and implemented secure, scalable RESTful APIs, compliant with GSMA standards.
- Developed mobile apps enabling smooth eSIM activation, onboarding, and management for end-users

PHP Developer OCT 2023 to AUG 2024.

Karnataka Skill Connect Portal (sriin5net)

- Developed a Laravel-based platform connecting students, colleges, and industries through skill-based interaction.
- Implemented Role-Based Access Control (RBAC) for secure access by students, colleges, and industries.
- Integrated job, internship, and apprenticeship modules, enabling industries to post and manage opportunities.
- Built a course marketplace and exam management system to support students' skill enhancement and assessment.
- Created custom Laravel packages and plugins for dynamic forms, reporting, and modular feature extensions.
- Optimized database and application performance using Eloquent ORM, caching, and indexing techniques.
- Implemented RESTful APIs with Laravel Sanctum for secure frontend-backend communication and authentication..

PHP Developer

BAS Manpower Application (sriin5net))

- Developed a Job Portal Application to gather and manage job seekers' records.
- Enabled clients to filter and segregate job seekers based on specific skill requirements

PROJECTS

Karnataka skill connect portal

Built a Laravel-based platform connecting students, colleges, and industries with secure role-based access control (RBAC) and modules for jobs, internships, and courses.

Enhanced performance with custom plugins, optimized queries, and RESTful APIs using Laravel Sanctum for seamless communication.

BAS Manpower Application

Job Seeker Management:
Gathered and maintained candidate records with advanced filtering and segregation features based on specific skill requirements.

Admin Panel: Designed and implemented reports, candidate data tables, and analytics dashboards for efficient oversight and decision-making.

Employee Panel: Built an Attendance Management System to track employee activities and maintain performance records.

Customer Panel: Enabled clients to purchase candidate records through plan-based access, skill-specific searches, and a seamlessly integrated payment gateway

Tools

- Git
- GitHub
- Aws code commit

Operating systems

- Ubuntu
- windows

EXPERIENCE

Software Developer

- Designed and implemented the **Admin Panel** with **reports, candidate data tables, and analytics** for better management. Ensured smooth deployment and functionality in dev and staging environments.
- Developed the **Employee Panel**, including an **Attendance Management System** for tracking employee activities.
- Built the **Customer Panel**, allowing users to purchase job seeker records based on selected plans, skill requirements, and **integrated a payment gateway** for seamless transactions.

Bengaluru, India

PHP Developer

SEPT to 2022 to JULY 2023

Project Description: Standard Operating Procedure (SOP) Management for the Pharmaceutical Industry(Trans Neuron Technology,)

- **Developed a Document Management System (DMS)** to manage Standard Operating Procedures (SOPs) for the pharmaceutical industry.
- **Designed and developed workflows** for SOP reviewing, approval, authorization, and acknowledgment.
- **Implemented training modules** for onboarding new employees and upskilling existing staff.
- **Integrated CKEditor & mPDF** for rich text editing and PDF document generation/management.
- **Designed relational database structure** to efficiently store and manage pharmaceutical data.

Software Developer

OCT 2021 to JULY 2022

Eabyas Info Soloution

Project :BIZLMS

- **Developed a dynamic corporate LMS application** using Laravel, catering to businesses of various industries and sizes.
- **Designed and implemented core LMS features** including course creation, virtual classrooms, learning paths, training calendars, assignments, and certificates.
- **Implemented TCPDF for PDF generation** and created **custom certificates** based on client requirements.
- **Customized and developed plugins** to extend and enhance LMS functionalities

EDUCATION

Bachelor of Technology - 2015-2019

Jawaharlal Nehru Technological University Ananthapuram, India
