PROFESSIONAL SUMMARY

PHP Developer with 3+ years of experience in backend and full-stack web development using PHP, MySQL, WordPress, JavaScript, and modern front-end tools. Strong in building scalable backend systems, API integrations, custom WordPress development, and performance-optimized web applications. Experienced in Core PHP, CodeIgniter, WordPress customizations, payment integrations, automations, and REST API development, with additional working knowledge of React.js for front-end features. Focused on clean code, security, and delivering reliable production systems.

TECHNICAL SKILLS

Backend: PHP, MySQL, Core PHP, CodeIgniter, REST APIs, Cron Jobs

Frontend: HTML5, CSS3, JavaScript (ES6+), jQuery, Bootstrap, Tailwind CSS

CMS/Platforms: WordPress, WooCommerce, WP Engine, Elementor, WP Bakery

Automation/Integrations: Razorpay, Pabbly Connect, Interakt, TagMango, SMTP, API Webhooks

Frameworks/Libraries: React.js (working experience), Next.js (basics), Laravel (learning)

Tools: Git, VS Code, MySQL Workbench, Postman, cPanel, hPanel, Framer

Other: Performance optimization, caching, SEO, security best practices

WORK EXPERIENCE

Software Developer   Aug 2025 – Present
FitX120, Chennai

– Developed and maintained the full Fitx120.in website using PHP and WordPress with custom blocks, SEO improvements, and optimized UI/UX.

– Built backend logic and user flows for TrainerPro including subscriptions, payments, referral tracking, authentication, and chat modules.

– Integrated Razorpay, TagMango, and Interakt APIs for automated payments, onboarding, and WhatsApp communication workflows.

– Created landing pages and user flows using HTML, CSS, JavaScript, and Tailwind, ensuring responsive design and fast performance.

PHP Developer   May 2024 – Jul 2025
TickTix Solutions, Chennai

– Upgraded RapidStep Prep ERP from CodeIgniter 3 to CodeIgniter 4 including student login, test modules, marks, admin tools, and API restructuring.

– Developed and maintained backend APIs, authentication flows, dashboards, and reporting features using PHP, MySQL, and REST APIs.

– Implemented integrations with external ASP.NET APIs and built UI logic using JavaScript and basic React components where required.

– Managed multiple WordPress sites including custom features, plugin extensions, and deployments.

WordPress Developer   Nov 2023 – Apr 2024
Manju Groups, Chennai

– Built and optimized WordPress websites with custom themes, plugins, and API integrations.

– Improved performance with caching, lazy loading, image optimization, and SEO techniques.

PHP Web Developer   Oct 2022 – Oct 2023
Teckzy Research Analytics IT Solutions, Chennai

– Created web portals and analytics dashboards using PHP, JS, AJAX, and MySQL.

– Led backend development and maintenance of Traitsity ERP used internally.
