---

### CAREER OBJECTIVE

Result-oriented Software Developer with 2.8 years of experience concentrating in backend programming, API integration, and data-driven solutions. I'm looking to join a tech-driven firm where I can use my **PHP, Laravel, React JS, MVC architecture** and **database management** skills to build high-performance applications. I am enthusiastic about working in an Agile environment and eager to contribute to innovative projects, improve operational efficiency, and expand my knowledge of software development.

---

### PROFILE SUMMARY

- Versatile and detail-oriented **Web Developer** with hands-on experience in designing, developing, and maintaining dynamic web applications using PHP, Laravel, React JS, and MySQL. Proficient in front-end and back-end development, RESTful API integration, and responsive UI design using HTML5, CSS3, and Bootstrap.
- Proficient in implementing **MVC architecture**, ensuring clean, modular, and maintainable code for scalable application development.
- Skilled in using tools like **Visual Studio Code, XAMPP, Git (GitHub/GitLab)**, and **POSTMAN** for efficient development and version control.
- A quick learner with a collaborative mindset, capable of adapting to Agile environments, participating in team planning, and contributing effectively to project documentation and delivery. Passionate about building scalable, user-friendly solutions and continuously enhancing technical expertise in modern web technologies.

---

### SKILLS

- **Languages:** JavaScript, PHP
- **Web Development:** HTML5, CSS3, Bootstrap, React JS, Laravel
- **Architecture:** MVC (Model–View–Controller)
- **APIs and Integration:** RESTful APIs, API Development, POSTMAN
- **Databases:** MySQL
- **Tools:** Visual Studio Code, XAMPP, Git (GitHub, GitLab).
- **Project Management:** Planning, Documentation, Collaboration

---

### EDUCATIONAL QUALIFICATION

- **Bachelor of Technology (B.Tech) in Computer Science and Engineering (2018 -2022).**

---

### EXPERIENCE

#### Kexlin Software Solutions Pvt Ltd

#### Software Developer

**Duration:** Mar 2023- Present

- Developed multiple end-to-end projects using **PHP, Laravel, Laravel REST API** and **MYSQL** focusing on requirement gathering, design, implementation, and maintenance.
- Collaborated with a team of engineers in Agile environments, employing Scrum methodologies to deliver web applications.
- Conducted unit testing and ensured high-quality code deployment, reducing functional errors by 80% before product launch.

- Anticipated business changes and collaborated with technical teams to implement solutions on schedule, avoiding disruptions.

## Tech Mahindra Smart Academy

### Intern

**Duration: July 2023- Feb 2023**

- Learned and assisted in developing web applications using **HTML, CSS, JavaScript, PHP** and **MySQL** gaining hands-on experience in full-stack development.

---

## PROJECTS

### **Training Institute Management System** (*Role: Full Stack Developer – React JS, Laravel, MySQL*)

- Designed and developed a platform to manage **students, courses, and fee tracking** using **Laravel**.
- Integrated **email notifications and invoice generation** features for enrolled students.
- Implemented **data validation and session-based authentication** for user security.
- Followed **Agile methodology**, participating in sprints and peer code reviews.

### **NGO Management System** (*Role: Backend Developer –PHP, Laravel, MySQL*)

- Developed a **Laravel-based platform** for NGO operations, including **donor management, event scheduling, and fund tracking**.
- Implemented **RESTful APIs** for donor registration and donation history retrieval.
- Designed **secure authentication** and multi-role access for admins and staff.
- Deployed and maintained the system using **GitHub** for version control.

### **Doctors Job Portal** (*Role: Backend Developer – Core PHP, MySQL*)

- Created an online **job portal for healthcare professionals** to search and apply for positions.
- Developed **secure login and registration modules** with admin control for job postings and user management.
- Integrated **filter-based job search** and **resume upload** functionalities.
- Used **Git** for version control and **XAMPP** for local development and testing.

### **Course Management System** (*Role: Full Stack Developer – Core PHP, MySQL*)

- Developed a complete web-based platform for managing courses, students, and faculty using **Core PHP** and **MySQL**.
- Implemented modules for **course enrolment, attendance tracking, and result generation**.
- Designed an intuitive **admin dashboard** for data monitoring and report generation.
- Optimized database structure and improved query performance for faster page loading.

### **Real Estate Management System** (*Role: Full Stack Developer – Core PHP, MySQL, Bootstrap*)

- Built a dynamic property listing system for **real estate agents and clients**.
- Implemented **property search, inquiry forms, and image upload** features using **Core PHP**.
- Designed a **responsive UI** using **HTML5, CSS3, and Bootstrap** for mobile-friendly access.
- Integrated **admin dashboard** for managing listings, clients, and contact requests

---
