 - Percentage: 79%

PROJECTS

- Hospital Management System – OPD Module (Laravel, MySQL, Bootstrap)**
Tools: VS Code
 - Built smart workflow where new patients go to registration and existing patients go directly to vitals entry.
 - Implemented full CRUD for patients, vitals, and visit records.
 - Added history page showing visit details and vitals trend charts (weight, height, BMI, BP, pulse, temperature).
- Asset Management System (Laravel, MySQL, Bootstrap)**
Tools: VS Code
 - Built a complete asset tracking system with full CRUD for assets, categories, assignments, and maintenance logs.
 - Implemented asset assignment/return workflow with status updates, warranty tracking, and repair logs.
 - Designed asset history page showing ownership changes, repairs, and complete lifecycle details.
- Company Registration System (Laravel, MySQL)**
Tools: VS Code
 - Built a simple company management module with full CRUD operations. Added search and filter features to quickly find companies by name, phone, email, or type.
